

GOD'S NEWEST REVELATIONS TO THE PEOPLE OF THE NEW ERA

"The time to think has come... All of the knowledge that you have is meant only for the following: To make you think, to compel you to analyze yourselves, to figure out your place in this world, and finally -- to understand who you are."

(An Epigraph by God))

TABLE OF CONTENTS

- 1. A Preface by Dr. Anna Zentsova-Vanneson to the American Edition
- 2. An Introduction by God (Recorded by Dr. Anna Zentsova-Vanneson)
- 3. A Note about the Recorders of the "Revelations"
- 4. The Spiritual Powers of God ---- God's Dictations of August 26,27,31, 2004
- 5. The Divine World as Harmony and Rest of the Eternal Evolution (Rest of the Process of Perfecting) ---- God's Dictation of September 1, 2004
- 6. The Main and Most Important Goal of Human Life Is the Perfecting of Man's Personality ---- God's Dictations of September 6,7,10,13,15, 2004
- 7. God Is Not Present, and There Is No Future, Wherever Faith and Unconditional, All-Forgiving Love Are Absent ---- God's Dictations of September 17,24, 2004 and October 3, 2004
- 8. God's Criticism of Contemporary Society and the Structure of Modern Government ---- God's Dictations of October 4, 20, 23, 25, 27,28, 2004 and December 7, 2004
- 9. The Evolution of Man Means the Perfecting of His Soul, If He Were to Choose Good (Rather Than Evil) ---- God's Dictations of November 1,4, 2004
- 10. The Spiritual World Is Where the Human Soul Exists Eternally ---- God's Dictations of November 5,6,7,9,10,14, 2004
- 11. All of Humanity's Problems Are Linked to the Absence of Information about the Spiritual World ----- God's Dictations of November 18,23, 2004
- 12. It Was Quantum Mechanics That Revealed the Spiritual World to Humanity for the First Time ----- God's Dictation of November 23, 2004
- 13. The Material and Spiritual Worlds and the World of Intellect Form A Structure That Resembles the Egyptian Pyramids ----- God's Dictations of November 25,26, 2004 and December 3, 2004

14. God's Trial of the Human Soul and Its Fate after Man's Death ----- God's Dictations of November 26, 2004 and December 5,7, 2004
15. The Souls of People Who Are in the Spiritual World (Paradise) Give Promptings and Warnings to Their Relatives in the Material World ----- God's Dictation of November 25, 2004
16. The Role of the Evil One in Man's Life ----- God's Dictations of November 26,28,29,30, 2004 and December 3, 2004
17. Man Was Created by God with the Goal of Being Used as the Lord's Assistant in the Rule of the Universe and Its Planetary System ----- God's Dictations of December 11,14,15, 2004
18. The Future of Humanity. The New Prayer Given by God to Humankind ----- God's Dictation of December 17, 2004
19. A Preface to the Analytical Commentaries on the "Revelations" from a Scientific Standpoint (by Dr. Anna Zentsova-Vanneson)
20. Commentary # 1: Concise Interpretation of the Laws of Quantum Mechanics (by Dr. Anna Zentsova-Vanneson)
21. Commentary # 2: The Matrix of Divine Space, or How the Universe Is Structured (by Dr. Anna Zentsova-Vanneson)
22. Commentary # 3: Water as An Informational Matrix of the Earth, or How Consciousness Programs the Structure of Water (by Dr. Anna Zentsova-Vanneson)
23. Commentary # 4: An Answer to the Question, "Why Does God Truly Exist?" (The Answer Can Be Found in Excerpts from the Lord's Dictations of the Year 2006 --- Selected and Arranged by Dr. Anna Zentsova-Vanneson)

A PREFACE BY DR. ANNA ZENTSOVA-VANNESON TO THE AMERICAN EDITION

This book could not have been written by any human being, due first of all to the fact that there are no omniscient people, and secondly because the scale of creative formation and plans presented in this book correspond only to the scale of the Creator. The originator of the dictations that represent the bulk of the book is our Creator (the Supreme Intellect, i.e., the Logos). We have only recorded them. At the end of the book is a series of analytical commentaries (from a scientific standpoint) on the Lord's Dictations to us. They were written by me, and concern the structure and the main physical laws of the Universe, as well as the reasons for the existence of God. Regrettably, religion has always adhered to the tenet of the incognoscibility of the Etheric(al) World, the Soul, and the Spirit. However, God provides us in His earliest Dictations with a thorough, exhaustive knowledge about phenomena related to them, about the structure of the Universe, the purposes of life on Earth, about evolution, and the future of humanity.

God has asked me to relay the following Message to the Americans:

" Whether America will be able to save itself in the very near future, as a civilization, as a highly developed nation, depends on the degree to which you, the American People, will be able to absorb the information that I am giving to you via My Russian Ambassadors."

GOD'S NEWEST REVELATIONS TO THE PEOPLE OF THE NEW ERA

(Recorded by Dr. Anna Zentsova-Vanneson)

INTRODUCTION BY GOD

I shall be conveying to you the contemporary interpretations of the structure of the World, where people reside presently, as well as the ones about the structure of the Spiritual World, where they will find themselves at the end of their lives. This will be done by Me in order to alleviate man's existence in the Material World, to explain to man his tasks in the World, and to prepare him for the meeting with Me.

In the "Revelations," I, your Lord and God, shall communicate information -- addressed to all people -- about the opportunities for humans and the societal status of Earth. I shall impart this using modern language and through two Russian scientists, who have been chosen by Me to serve as My assistants. I am warning you of a possible collapse and shall explain to people, on the basis of the knowledge given by Me about the Laws of the Spiritual World, the prospects related to the building of equitable social relations and the structure of a Pyramid of power. The revelations are designated by Me to share gradually My Knowledge with the terrestrial inhabitants.

The meaning of human life and man's potential will become clear only when man will be able to realize and grasp his role in the Material World. Each individual, who has read the "Revelations," will be able to fill up his Cup of Reason and receive an impetus that will lead him to perfection and stimulate the development of his personality. All of these will help him to have a better life in the Material World, and to get ready for the meeting with Me on the threshold of the Spiritual World! The fulfillment of even a portion of My recommendations and the application of the knowledge, included in the "Revelations," will allow him to select the proper guiding lines and to comprehend the meaning of his short life on Earth!

A NOTE ABOUT THE RECORDERS OF THE "REVELATIONS"

Dr. Anna Zentsova-Vanneson is an expert in the domains of theoretical physics, mathematics, astrophysics, and cosmology. She is the author of over 50 academic research works that have been published in Russia and other countries. They include, among other topics, new approaches in the analysis of phenomena such as black and white holes, physical processes in the early Universe, and torsion fields. Dr. Anna Zentsova-Vanneson has an experience of more than 20 years in the area of channeling with different levels of the Supreme Intellect.

Dr. Leonid I. Maslov is a member of the Russian Academy of Sciences, and is the author of more than 200 works in the realm of solid-state physics and related fields. He has been a channeler for the Supreme Intellect for many years. Dr. Maslov is the leader of the movement, "For A Spiritual Rebirth of Russia."

"REVELATIONS"

Dictated by God to Dr. Leonid Maslov and Dr. Anna Zentsova-Vanneson

DICTION of August 26, 2004

1. Today, I your Lord and the Creator of Everybody and Everything, am beginning to talk to you about Religion, Its Foundations, about the structure of the Worlds, and about the future of humanity.
2. The road to the comprehension of my Religion will be thorny yet successful for the people who are constantly in motion. The individuals who are not idle and are not dissipating their lives, given to them by me as gifts, will be enlightened about My Eternal Truths.
3. I shall point out several cardinal postulates at this initial stage of the process of your attainment of My Eternal Knowledge.
4. Foremost of all --- Faith in God, and again --- Faith in God; this is the very Foundation of foundations of human existence in the Physical (Material) World!
5. Second --- The individual road, to be followed by humans in the Bright World of My Eternity, will be predetermined.
6. Third --- Necessity of a constant progress of the human personality, of a perennial upward evolution along the spirals of Eternity.
7. Fourth --- There is no regress; there is only forward movement.
8. Fifth --- The grasp of God's Words, of the Teachings of the Lord. This is crucial for the making of one's no-return trip on the road to Enlightenment safer.
9. Sixth --- Hope for success and Faith in the possibility to perfect the human Personality and Soul.
10. Now, I shall enumerate briefly the questions and issues that will be discussed and explained in detail in the Revelations, in order to be studied and absorbed by humans.
11. We shall commence with Human Existence.

12. What is It?
13. It is (generally) accepted in your Material World that (the mode of) life determines one's consciousness.
This, in its essence, is an incorrect axiom.
14. At first, you ought to understand what you have created, what kind of a society you live in, and what is awaiting you ahead.
15. You have muddled-up moral values, but more important than anything is the absence in your Material World of any lucid, definitive fundamental laws.
16. You have been endeavoring in the course of many centuries, without My Help, to find your own avenue for your society's evolution and for the development of harmonious and constructive societal relations. However, the cumulative result of all of these independent (from Me) attempts to find the Eternal Truths and the avenues to build a just society has amounted to a fiasco.
17. Whenever you try to create new societal relations, you keep ignoring the need of personal improvement to the level of My likeness (as stated in the Commandments).
18. I want to see you as My likeness in your Material World.

DICTATION of September 27, 2004

1. ... What is the Spirit that you often talk about?
2. The Spirit is My Godly Strength and My Power over the Worlds.
3. It is from the Spirit that My definition emanates: Consciousness determines life!
4. The Spirit is My Strength that secures the evolution of life on Earth.
5. It is from the Spirit that the gradual forward evolution of life proceeds along the spiral of Eternity.
6. The essence of My World is in Harmony with My Powers and the direction of their application.
7. The balance of these Powers is determined, and it provides an opportunity for progress and the development of human society.

8. People need to understand My Powers, and find and adhere to the balance of these external and internal Powers, in order for the progress of humanity to be genuine.

9. The balance has been calculated and determined by Me, but people – instead of understanding and finding the equilibrium of My Powers – keep looking for new energy sources, wasting in this way all of their intellectual and material potential.

10. However, it is difficult – if not practically impossible – for people to find on their own a balance of My Powers without Religion and without My Help.

11. The concept of "Knowledge Is Power" is My term that is ageless and continuously in use, but any of its new applications are confirmations that man needs to possess profound knowledge about the structure of My Creation, where everything is in Harmony with the Powers, and is in equilibrium with their applications. Man ought to have this knowledge in order to understand his designation and place in the Universe.

12. The Power of My Spirit -- this is the main Power on Earth. It issues from Me and determines the opportunities for the Man-creator.

13. Man can create anything only with My Help. Yet the Power, which helps Man to attain the pinnacle of his development, is being parcelled out by Me, and given only to individuals who are deemed by Me to be worthy of its possession.

14. My Power is in the Eternity of the movement of Worlds, and is determined by My Spirit.

15. This Power can be materialized as energy on Earth. This energy is understood by humans and is measurable with physical devices.

16. It is important for people to remember always that the energy being measured by you is My Power, that everything originates from me, and that I make decisions and give promptings to people.

17. That is why, it is necessary to ask Me all questions about My Powers and about the possibilities for their use by humans.

18. However, My main condition is that instead of turning to Me for help, man needs to come to know himself and to discover his opportunities and abilities. Having accomplished this, man will understand My World, and then there will be no limit to the realization of the opportunities for him in his efforts to control Earth and Eternity.

19. The next question, which has been tormenting people for centuries is: What is Eternity?

20. Eternity --- this is the race of time, which is unstoppable.
21. Everything is in a state of rest of the Eternal movement!
22. For Me, time does not exist (in your interpretation of the concept of time). There is only movement forward, only progress, only beginning. There is no end, and there cannot be any end.
23. Everything is moving in a synchronized and balanced fashion. The entire Planetary system, including the Earth, is under My control.
24. Nobody can stop the perennial movement. The Power is only in movement, including the Power of the Spirit...

Dictation of August 31, 2004

1. Man has to reach the climax of the evolution of his personality in order to govern Earth and to be God's deputy on it.
2. The basis of the development and the perfecting of the personality of man is Faith in God, in the Creator, in His system of Eternal movement.
3. This is My basic Law for the Earth and for the planetary systems.
4. Faith --- this is the acceptance of My World Order, the acceptance of the system of Eternal movement, and the acceptance of the Harmony of My Powers.
5. Now, I shall explain to you what Love is.
6. Love --- this is a Divine engine.
7. This is not a bedroom embrace; this is a state of Harmony and inner peace.
8. Happiness and Love --- these are the highest achievements of the Harmony of relations.

Dictation of September 1, 2004

1. ... It is necessary to walk along the road of formation and perfection of one's Personality, which is filled with the Divine Beginning and an absolute confidence

in the righteousness of God's actions.

2. We are talking about the Personality (starting with a capital letter), which corresponds to the new times and the new way of the formation of a new generation of people.

3. I would like to emphasize again: Religion is the Foundation of everything, and in it Faith and Love are the engines of the Eternal processes of forward movement.

4. Everything is moving within the confines of the Love, Faith, and Harmony of My Powers, and is synchronous with the vector of their applications.

5. My World --- this is Harmony and a state of rest of the Eternal movement.

6. Vanity and the acceleration of downward movement are all characteristic traits of human life, a nervous "Brownian Motion," chaotic racing in different directions, an existence without Love and Faith.

7. This is a consequence of the expression of the nature of Man, who does not accept and does not believe in Divine Laws, and who is trying to go His own independent way.

8. Man has forgotten that in order to be able to move forward his own way, he has to determine his position vis-à-vis the World and Eternity, where he resides.

9. There is only one correct position here: Faith in the Most High, the Almighty, in His structure of the World and His Powers.

10. The upward movement along the spirals of the perfection of the human personality takes place only on the basis of Love and Harmony.

11. Humankind's progress is possible only in this way. Humanity cannot evolve without these seemingly simple and understandable conditions.

12. Any other variant will lead to a dead-end street, downward movement, or a race sideways.

13. Due to this, humanity is associated with terrorism and limitless power that is not received from God.

14. It seems that the knot of negative developments is so big and tight that it ought to be cut, since it is impossible to untie it.

15. However, to cut the knot means that a solution will be found, but one that is associated with (insoluble) problems and stained with the blood of innocent people.

16. And this will further lead to a decay of human consciousness because without Love, without Harmony people's attitude will be characterized by hatred, panic, fear, and bitterness due to the realization that there is no way out.

17. Regrettably, man lives in accordance with the principle of comparing himself to his own kind, and adopts the maxims that "happiness can be known through unhappiness," and that "wealth can be appreciated against the background of general poverty."

18. Greed engenders the desire to become wealthier at any price than one's neighbor and the acceptance of the principle of "the wealthier I am, the happier I am."

19. The foundation of such "progress" is to have more than one's neighbor, to possess more than a neighboring clan. If this is not attainable by means of honest labor or abilities, it turns out that it is possible to simply take away others' possessions or make conditions more difficult for the existence of a neighbors' clan.

20. This is the basis of movement (life) on Earth, in the World, a movement that is not created in accordance with My Commandments. On Earth, all books, except Mine, are used to teach each new generation the above.

21. Such an evolution of humanity should not be allowed. Everything must move along My path, and foremost of all the cardinal principles of life on Earth must be adopted --- Faith, Love, and Harmony, as well as the strict adherence to the Laws of Eternity.

22. The time has come to direct people to move on the only right path, to instruct them how to evolve. The "Revelations" will serve as a road map or a forward movement route.

23. I want to show to people that an ordinary human, who has received the Divine Providence, is changing, and new creative opportunities are opening for him; new aspects of man's talents are revealed that enable him to do extraordinary things in routine settings, things that are impossible for ordinary people.

24. It is necessary to demonstrate that man's abilities, his work potential, and above all his unwavering Spirit of Faith in God and Faith in his predestination ordained by God, open boundless expanses.

DICTATION of September 3, 2004

1. ... I say that the basis of My Religion are Faith and Love, which represent the foundation of the rest of the Eternal movement in the Universe.
2. Nothing needs to change except the movement forward with the use of My Powers, which are designated for creative purposes. If the vector or the sign of these Powers are to be considered, it must be stressed that they are always positive, with a "plus" sign.

DICTATION of September 4, 2004

1. ...It ought to be understood that progress on Earth is unthinkable without Religion. All people are talking about progress all of the time, and leaders of nations are drafting social development plans for the foreseeable future.
2. All this in vain. There will be no abrupt speeding up of the pace of progress, since there are no ideas, no plans about the formation of the new man, who – having developed his abilities – could have become the master of Earth (in My image), and on this basis could have launched society and government on a new road of development with the use of the Divine Fundamentals.
3. Only in such a case, the storage cells of the brain and the storerooms of scientific knowledge can be opened and change your views about the World that have been formed in the course of the past centuries.
4. These are the objective and the direction worthy of the time, which I am getting ready to realize in the 21st century through Russia, and using my obedient assistants for this purpose.
5. I'm starting with Russia because I rely on her Spiritual mentality, which is essentially conscientious, but is nevertheless stained with the contemporary views of the World and the confusion and squabbles of daily existence.
6. Once it had shed this peel, the Russian society can become highly spiritual and advanced, ready to inaugurate social reforms.
7. Let us recall that all pyramids of power or pyramids of governmental structure do not pass the test of time and are destroyed. This is due to the fact that the Divine Providence is not incorporated in the foundation of the said structure, a foundation that is made of the mutual deception between humans.
8. Only My Pyramid of power – serving as a symbol of My Eternal World – is standing eternally.
9. All of My Laws are written in a strictly defined geometrical form on the

Pyramids of Egypt. They can be easily read by the willing.

10. Take a good look, and you will see all that you need to know and must do when organizing your civil society. Then, your crowning achievement in this process will be a Pyramid of Eternal rest and gradual forward movement.

11. And then, the man-beast /look at the Sphinx/ will be transformed from a beast into a Man-creator. This is your path, and it is one.

12. And then you are a Man (starting with a capital letter), who is observing the Laws of the Divine World. These are the laws that are inscribed in the form of the rigid geometry of the Pyramid.

13. Here it is, My Eternal Message to humanity, yet none of you has paid attention to it, and people interpret the meaning of the Sphinx and the Pyramids in any ways that suit them, but the correct one.

14. I have scattered on Earth many landmarks of this type, but there has been no result so far.

15. This is why I have decided now to intervene in the process of human evolution.

16. If the vector or the sign of these powers is to be considered, it must be noted that they are always positive, with a "plus" sign. The negative forces aimed at destruction are generated by the Evil One or by people who do not believe in God.

DICTATION of September 6, 2004

1. ...Once more: The purpose of man on Earth is the perfecting of his personality.
2. My objective is the transferral of My Knowledge to Earth in order to teach people to live in accordance with My Laws.
3. These two objectives supplement each other splendidly and allow the forming of man in a way that will bring about the realization of My objectives.
4. Man must accept with humility My Deeds, since he does not know his "Tomorrow."
5. Unknown to man are the ways of God. Everything is in My hands – giving rewards and meting out punishments.
6. You do not have any chances to make your own decision that would be the only correct one.
7. If you are with Me, I shall give you Light, shall clear the way, and shall lead you straightforward on a path that is right and predestined.
8. Do accept fate or better said, its turns and vicissitudes with joy, because you do not know what is beyond the next turn.
9. And I do know what is awaiting you behind each turn, since I make them in order to enable you to reach the desired goal successfully.
10. Everything will be done the way it must be done, the way it has been decided to be done. However, I have only one condition – Faith plus Love; all the rest will fall into its proper place.
11. Do comprehend the Foundations of the Universe, the basic Laws of the evolution of society, according to God's Will.
12. Your destiny is the accumulation of My Knowledge and the filling up of the Cup of Reason in order to have an Eternal life with Me.
13. This process will progress fast with My Help, but without it, it will take centuries to be completed.
14. Running in place – this is your favorite sport on Earth that you have learned and mastered.

15. You remove the people who are not running in place because they do not fit, they do not follow your rules of the race.

16. Thirst and greed are the chief criteria of the "athletes" who are running in place.

17. Their T-shirts are of the same color. There are not any and there cannot be any personalities. Here, leaders are not needed, and could be even dangerous, since they disrupt the harmonious regularity of the ranks.

18. The main thing is to run quietly and smoothly. This is the Eternity of movement (backwards), in accordance with the law on Earth.

19. But with Me, there is rest of the Eternal movement forward.

20. Here are the fundamental questions and different approaches to life.

21. There is a spiral of the perfecting of the personality and a spiral of the lack of such perfecting.

22. There is improvement, made by people and one that is not insignificant, yet it is not an improvement of the personality but one aimed at the perfecting of material values.

23. On Earth, there is only one set of values – the accumulation of wealth, the achievement of material well-being.

24. What can I expect in this case from such a man? An imperfect creature, without a soul; this is only man's shadow. The shadow is ruling its subject and is devouring him.

25. You live in a World of shadows, which are not worthy of the High Spirit and Reason.

26. A shadow, a thick shadow is the criterion of life on Earth.

27. Isn't this really life; isn't this really the purpose of life? This is a caricature, the turning of life upside down, a parody of the personality. There will be nothing good coming out of this. Do not wait, because only the development of the personality gets rid of the shadow.

- 1 ... When man fulfills his assignment, which I demand, I let him into My World of rest of the Eternal movement. Here, in My Paradise, he is given rest and happiness.
2. In My Paradise, man will truly comprehend the difference between My Organization of the World and the one organized by humans.
3. Man will see the depth of the abyss representing the difference between the two Worlds – Harmony and Love in one but hatred and greed in the other.
4. But this will transpire later. At the beginning, you will realize the Truth and the possibility of the transformation of life on Earth by your adherence to My Divine Laws.
5. These Laws of Mine have been written a long time ago, but regardless of his familiarity with them, man does not implement them in their full measure.
6. It would seem that everything is very simple and clear: There are all in all just ten Commandments, but people do not abide by them and do not want to be happy, even within the framework of one family.
7. The Evil One has arranged that all people are alone, by themselves. All of them are drifting aimlessly, as if they are in darkness, and do not see that there are other people side-by-side with them. The sins and vices have shut their eyes, and their eyelids cannot open, since they are too heavy.
8. We must put Light into the Souls of these people. Only then they will be able to find each other and understand that they are not alone, that they can find happiness in communicating with each other.
9. They will understand that Harmony is attainable. It is only necessary to Love each other and remember about Me and My Laws which must be followed constantly.
10. There is nothing simpler than this Religion of Love and the Laws of Human Existence.
11. Everything is becoming clear and simple. Unseen abilities will be revealed to the Man-creator, the Man- master of Earth, who is treating it with care and uses its opportunities.
12. A Harmonious man – this is My Dream and My Goal!
13. It appeared that everything has been prepared, but the earthly life has glued the people to filth and vices.
14. This is why I detach everybody from the dirt, and each one individually, away

from his own filth – from his sins and earthly vices.

15. I am making you to exert yourselves in the name of your own good and your destiny. I am leading you to the Light and filling you up with Wisdom, Reason, and Love.

16. You are My beloved children, and I forgive your irrationality and believe that you will evolve to the level of God's likeness, and if you do not compare yourselves with Me, then you will still get very close to Me, even as close as the distance of a stretched arm.

17. And I --- do believe Me --- shall be happy and shall hand over to you My Eternal Knowledge, which you will use to light up your only and true path.

18. Only God and nobody else can give Light and happiness to people.

19. Man can believe only fellow man, and today it is very important that you would trust the individual, who has recorded these lines, not posthumously, but precisely now, when the person is still living.

20. After all, aren't you (people) in the habit of praying for the departed, because the dead are already gone and cannot influence your behavior? This is "comfortable" for you – to move forward with your head turned backwards.

21. I do say to you that happiness is when you are moving forward in your development (and without turning backwards), when you are trusting the people who are by you, the people who love one another.

22. The Man who is looking ahead – this is the Man-builder, the Man-constructive worker, the Man-creator.

23. This is why we are moving in this direction together, hand in hand, loving each other, filling up ourselves with Love, while feeling Faith and Hope in the reorganization of the World, a World that will be just, Divine, and wonderful...

DICTATION of September 10, 2004

1. ...The Foundation of My Religion is Faith plus Love --- this is the most important thing for man...

2. Man can reach the peaks in his efforts to perfect himself only in the areas of Faith and Love. This will enable him to be ready to become a Sovereign in My

Image of the Terrestrial World.

3. The goal of man on Earth during his brief "assignments" is to reach these heights and elevate himself to a position next to God!
4. This is, in brief, your objective on Earth. This is why the "assignments" of people on this Proving Ground of morality are repeated so frequently and regrettably so futilely.
5. Man does not fulfill these tasks using his foundation, but keeps trying to build his society on his own. He keeps forgetting in his brief life the Foundations of the Laws, used to create My Kingdom, where he has just been in.
6. Indeed, when on an "assignment" on Earth, without My Control, man -- rather than continuing to work on his self-perfection -- forgets everything instantaneously, and transforms himself into a primitive animal whose needs are centered on material existence.
7. The chief concern of such a man becomes the acquisition of material things, of mammon of such a size that will enable him to "tear himself away," losing his conscience and shame, losing his Great Human appearance.
8. The process of perfecting one's personality to the level of God is rare among humans; in essence, the running in place goes on, or a lowering of one's self-imposed standards transpires, which results in one's transformation into a man-beast.
9. This is why it is so absolutely necessary to stop this destructive process of the movement of humanity along a downward spiral, towards the abyss of self-destruction.
10. The process of self-destruction reached a critical point (of bifurcation), beyond which every movement downward will bring about a spontaneous, avalanche-like, unstoppable process -- a collapse.
11. It is necessary to act promptly, not waiting even for a minute; a delay is like death.
12. The majority of people on Earth do not want to read the Holy Scriptures (the Bible, the Gospels, etc.). Many of them do not have the time not only to study but at least to glance once in a while at My Epistles.
13. There is one hope left. It is centered on the voices of the people in the crowd who could shout out the rest of the mob, and who will show the road to the Light of God and to the reorganization of the World of humans in a way that will make it resemble the Lord's Kingdom.
14. The entire hope is in these people, who assume the responsibility and are

leading the herd to the Light, diverting it from the abyss and the inevitable annihilation.

15. Now you can be saved only by means that are forcible to a certain degree. My intervention will be the last one, and will be imposed on you.

16. After we divert the herd from the abyss, another goal will have to be accomplished – to bring to each man the Eternal Knowledge. This must be done in order for man to understand his local (sub)goals, to analyze and comprehend the Foundations of the Structure of the World, and to begin the building of his House. He will be doing this fast thanks to the realization of the meaning of his task. His House will be a just society, built upon the Foundation of my Eternal Laws.

17. I gave My Knowledge in order for man to finally understand and accept that everything on Earth is from God, that all that he has is also from God, and that he is using in his material development the Divine Powers, given to him as gifts to help him in his development and perfecting.

18. My help eliminates man's worries about problems and needs related to everyday's life. It also allows him to have time to evolve to perfection whose limit is God -- God on Earth.

19. As society evolves and becomes increasingly urbanized, the negative powers accelerate the process of disintegration, the degeneration of humanity. It leads to a point, after which follows an avalanche-like, unstoppable self-destruction.

20. Look at the Mysteries of the 18th, 19th, 20th, and 21st centuries; compare their speeds of disintegration, and you will see that the 21st century is either life or death. Humanity is at the final line of the process of self-destruction.

21. It is necessary to scream about that; it is necessary to simply howl and wail!

22. The preachers must become the new authoritative rulers. Their sermons will be used to restrain and to stop the impetuous mob and divert it from the final and thorough collapse. They will reveal in a simple and accessible form the map of the new road to Faith, to God.

23. They must not only show the right direction, where to go, but they ought to show again in a simple and accessible form the set of rules, God's Laws, which all people on Earth must adhere to unconditionally.

DICTATION of September 13, 2004

1. The Commandments in the Old and New Testaments were in harmony with the levels of human evolution during these historical epochs, and deciphered for people the foundation of My Universe at the said levels.
2. It is a different era now, when it is necessary to switch to another, to a contemporary language of communications. It is an epoch, when computerization and the Internet have made possible real-time communications on a global scale.
3. An unprecedented opportunity opened to exert influence not only on one nation but on all and simultaneously.

DICTATION of September 15, 2004

1. The degradation of moral principles, the enrichment at any price, and greed have reached unprecedented speeds.
2. It is necessary to talk a lot about it, since history does not know about a worldwide moral degradation at such a level.
3. This is where the danger is, where Sodom and Gomorrah are!
4. The foundations of the World on Earth are being destroyed; there are not any more restraining factors. Now, everything is possible!
5. It had become possible out of a sudden for all of humanity to be made obedient to a small group of people who have their own ideas about social relations.
6. Humanity is at the finish line, at the point of no return. This is either the end or the beginning of reconstruction!

DICTATION of September 17, 2004

1. Faith and Love are most important, and in them is incorporated the profound comprehension of My Religion.
2. The first one --- this is Faith in God, while the second one is Love of God and for everybody and everything around man.
3. The cornerstone of all on Earth is represented by the Faith in Me and the Love of one's neighbor. A hymn with these two words is necessary.
4. A "Lord's Prayer" and Faith in God and His actions are needed. It is necessary to love Him, love oneself as His likeness, and love one's associates as His children.
5. This is all that man has to know. Keep repeating these two words so often, with such a profound feeling, that they will be embedded in your consciousness and will open the storing abilities of man.
6. And I, having seen all of this, shall assist in all undertakings, and shall deflect, shall ward off all misfortunes, troubles, and calamities.
7. And man will always make sure that his actions are commensurable with these words. And this is the Password for the actions of man in the urbanized world.
8. I Believe, I Love – now and after a thousand years!
9. This is the Religion of Man. What else does he need?

DICTIONARY of September 24, 2004

1. I repeat again: The Cornerstone of My Teaching is Faith plus Love.
2. This is the depth of these words: I believe in my God, the Heavenly Father, and I love Him because He is just and because His Laws are just. And there are not and there must not be any other laws and regulations for men on Earth.
3. There are only a few people who believe sincerely and deeply, and this is due to man's realization of the need to have Faith only at the end of the road, close to his departure from his earthly life, when suddenly remembering about Faith, he starts begging Me for mercy and the remission of his sins.

4. I am merciful to all and assume responsibility for these sins.
5. However, these people have not fulfilled their mission.
6. What is the very best is to be a righteous man during one's lifetime.
7. The process should start with the new, young generation.
8. This is My second and most important goal – a new righteous generation.
9. And My first objective is the preparation of man for the reconstruction of the World of humanity, the reconstruction of life on Earth in semblance to the one in the Lord's Kingdom.

1. When man accepts "Faith," he agrees with My System of the structure of the World as the only correct one, acknowledges that he is its integral part, and submits himself to My Laws.
2. And when man accepts conscientiously this order of the World's Structure, he will see that everything is so harmonious, so beautiful that it is simply impossible not to love, not to admire this System of Mine.
3. Since man and his clan represent a part of this harmonious and coherent System of the World's Structure, it would be impossible for him not to love everything that belongs to It.
4. Isn't it happiness – the participation of man in It, where everything is registered, and not only you, the man-God, but even a ladybird beetle, even the smallest blade of grass – all of these are in One, Single, United, and Harmonious World!
5. This is why this Harmony of happiness engenders a profound Love of the Creator of this System and for all of Its participants.
6. This is what Love is – Love of the harmony of My System and for the harmony of one's own participation in My rest of the Eternal movement.
7. Love – this is the Happiness of participation, of active participation in My Actions.
8. In other words, a Harmony with My World is Happiness, is Love!
9. And as a reward, such a man receives from Me, God, Wisdom -- for his actions here, on Earth, and for the future, for Eternity!

DICTATION of October 4, 2004

1. I cannot build a democratic or a socialist, and finally, a capitalist society. All of these societies are not Mine – in terms of both of their structures and of their ideologies.

2. People of the modern societies have thought up the concept of a "middle class." What is this? Its members are semi-slaves or slaves on a small-scale. They are viewed as contributors to the decrease of the danger of humanity's collapse!
3. This is a profound delusion! This social layer is getting fat and is converting itself into the layer of a powerful elite, or just the opposite, it is transforming itself into a slaves' camp.
4. Such a stratification of the middle class is dangerous, because it violates the "master-slave" equilibrium. And this leads to society's collapse.
5. Facing such a deadlock, such an impasse, people will then come to Me themselves!
6. It is necessary to rise above all kinds of religious traditions and faiths, and to step up together with Me to a higher level!
7. It is necessary to turn people's consciousness towards My Values: Faith, Love, and Hope, and not to focus on one specific religion.
8. You should not remain on the religious foundations of your contemporaneity. If you did, this will only result in estrangement, in disunity of humans.

DICTATION of October 16, 2004

1. The symbol of My rule in the form of a Pyramid is encountered frequently. People do not understand this symbol.
2. My signs, My punishments (in the form of natural disasters and diseases) cannot be seen by anybody. They are viewed simply as accidental, as unpredictable calamities.
3. However, there is nothing accidental in this world.
4. Man cannot know the future, as it belongs only to Me!
5. I know all of your secret thoughts, which have not been formed yet. You cannot hide from Me!
6. You are indeed telling Me everything at night. It is during the night that you

are unconscious, and during this time I receive information about all of your deeds.

7. I keep always getting surprised that having received nice thoughts via prophetic dreams at night, in the morning, you resume doing everything your way due to your greed and pride.

8. Nobody thinks about the "Bread of Vital Knowledge"; all want "Great deeds," and this is vice.

9. I have a criteria, a "pass" – the development of one's personality and the accumulation of My Knowledge. I need geniuses, gifted individuals, who will open the people's eyes towards the Great, the Eternal, and will lead their fellow humans to Eternity!

10. Living through suffering, man looks for protection in Me, but nobody asks to build a society that is just and righteous.

DICTION of October 20, 2004

1. The situation in different countries, their pseudointegration, terrorism, religion – all of these issues are discussed intensively in the media.

2. The conclusion of the elite is: There is the problem of terrorism and all sorts of international problems, and we must deal with these problems rather than think about the unjust structure of the World.

3. Thus it follows that the ruling elite detracts the people from the eternal problems, from their causes and from defending their interests.

4. All of the enumerated problems, especially terrorism, are simply necessary for this elite to divert to them the attention of the herd of slaves. Do think now: Whom and why is this necessary? I think that the answer is clear.

5. It is a pity that innocent people keep dying, while the puppeteers who are masterminding, guiding this tragic spectacle, are protected in such a way that no terrorist could get to them.

6. I already said that only I am able to do everything, including the stopping of terrorism and the reconciliation of all religions.

7. I have already started this process, but in order for the action to commence, a

period of 2 to 3 years is necessary.

8. I am preparing the Ones Who Are Listening to Me. I'm transmitting to them information about Me, about My Pyramid of power, about the Eternal values and My Laws.

9. I chose such people not from the ruling elite but from the mass of ordinary people. These individuals are not stained or soiled. They have an authority to lead the herd behind them.

10. To these Listening Ones I want to transfer power in order to enable them to build a Society that is similar to My Eternal Kingdom. Everybody has his/her assignment and has no right to go over its limits.

11. And the illiterate, foolish people who occupy positions of power, cannot understand that the "hats" do not fit their heads, and that is why they are looking for literate and smart people to work for them. Again, slaves are needed, but ones who were smarter than their masters.

DICTION of October 23, 2004

1. I said already that time is only with you, and you are planning it incorrectly, simply because there is nothing to plan!

2. All is eternal, all is constant! For Me, your sudden changes and forecasting are but an instant. I do not notice them. If you would only believe Me and would believe in Eternity, then I would show the timescale of events of the Eternal movement. Then, it would be possible to figure out which point you are at, and what you have achieved.

3. You must not plan, when you are at a certain point in time and not evolving.

4. Another timescale is needed for events, but you do not have it. Haven't you arrived here instantaneously? Yet, I still regulate events.

5. You do not have enough time for your own development, for the deepening of your own knowledge and the acquisition of My Knowledge, and no time whatsoever for the following and analyzing of global events.

6. Life is so short! Take advantage of the chance to perfect yourself.

7. When you understand who you are and why you are here, then you will figure

out also the meaning of your life.

8. Therefore I want to explain once more the Commandment of My Son. He said: "Know yourself.", "Love your neighbor as you love yourself." Having come to know yourself, you will comprehend your Divine Path. You will come to love My Creation, My children the way you love yourself. And happiness and love will come to you through the realization that your neighbors are particles of God side-by-side with you.

9. Here is the way how My religion is formulated: Faith in Me, Love for Everybody and Everything connected to Me, Hope that you will reach My heights with My Help, and that I shall endow you with My Wisdom!

10. This is what you have to strive for, this is your righteous road; this is how we keep moving. And there is no road that is more lighted, more bright!

DICTION of October 25, 2004

1. You ought to know the Foundations of My Religion like the "Lord's Prayer": Faith in God, Love for Him and His actions, and Hope that the perfection of one's personality will reach the point that it resembles Mine. I shall reciprocate by giving you in return, and to be used by you forever, My Wisdom!

2. Here are, briefly outlined, the cardinal postulates of My Religion.

3. I repeat: Mine, regardless of the name of the religion of the clan and of the confessional denomination.

4. These words – and I have in mind four words: Faith, Love, Hope, and Wisdom – unite all people regardless of everything.

5. This is truly extremely important at the present stage of the evolution of humanity, when it seems that people are divided like never before.

6. Paradoxically, but it was the high technologies that have discovered the problems of humanity and have revealed the critical points in the development of society and the inequity in the distribution of benefits among people.

7. And at the same time, the high-tech industry, and I mean the information technologies and chiefly the Internet, allow the unification of people.

8. When the Internet-borne information will be broadcast by sound too, then the Internet will become the most terrible weapon in the duping of the consciousness

of the people.

9. This is when it will become possible to use all sorts of technologies that will allow the transformation of people into slaves, with a zombie-like consciousness, and their degradation to the level of animals-beasts. This is a dangerous perspective!

10. The higher the level of progress, the closer the collapse of humanity!

11. However, a historical chance has appeared for Me to intervene and make society such as I want it to be, according to My scheme and in My Likeness!

12. I am creating a society that will follow only one Religion of Mine, a society comprised of people with similar views and creators. I shall do everything possible in the name of accomplishing My goal, and shall not spare My opponents. I have made a decision, and I shall see it fulfilled, whether you like it or not. I shall do what I have conceived.

13. We are moving to this, and I am in a hurry. I am selecting the ones who are listening to Me; I am preparing them. I am giving information, revealing My plans, and assigning roles to everybody. Nobody can refuse the role entrusted to him, and there will be no ambitions. In the name of the Great goal, all roles are good.

14. Therefore, if someone might think that the role of a caretaker is insultingly minor, I shall answer, "You do not know 'Tomorrow', and the meaning of your role."

15. I shall give awards to all, regardless of their roles in the Performance. The Show will be for all, and for Me It is already underway. The elements, controlled by Me, are in action, energizing your consciousness and creating conditions for the unification of humanity when confronting the danger of extinction. It is your turn, Mr. Man. I'm asking you to appear on the stage. The curtain is raised, and the Show is on!

DICTION of October 27, 2004

1. The foundations of My Religion are Four Key Words: Faith, Love, Hope, and Wisdom.

2. Faith in Me, in My deeds, in My Laws, Love of Me, for My actions, for all that I have made, for all that is around Me.

3. Love for My children on Earth, love of one's neighbors, and love of oneself,

the way you love the Son of God.

4. Hope that having received education, you (man) will reach My level, will become My likeness.

5. Wisdom, which I shall give you, will allow you to rule here, on Earth, everybody and everything. It will let you create here, on Earth, a state in semblance of My Eternal Kingdom. This state will have as its foundation the one of My Kingdom, i.e., the Pyramid of power.

6. This is the foundation of Religion. It is necessary to give man, irrespective of his nationality and faith, the Foundation of My Religion, make it a banner, a prayer, an oath, and the most important of all is My simple demand of man that he must always use it here.

7. Having fulfilled My demand, he will do what is written in its designation.

8. And his destiny will be revealed; it will become understandable. It will also become understandable who he is and why he is here. He will receive My blessings for earthly actions. And he will be happy, and he will be man-God!

9. This is what I want to build here – a new state that will ensure the perfecting of the personality of man on Earth to heights that are similar to Mine.

10. The purpose of the government is to create conditions for the perfecting of the human personality, i.e., the government is for the person, and not vice versa.

11. In the absence of this, if these conditions are not satisfied, the state-governing apparatus will be transformed into a mechanism for the suppression of the personality.

12. Suppressing the personality, the state starts to create men-slaves. The parasitic government secures its existence by exploiting man and maims him by transforming him into a zombie.

13. Such a government does not need personalities; they are viewed as even harmful and dangerous. They are carriers of a revolutionary beginning and represent a danger of destructive nature to the rulers, due to their realization that this type of a government is opposed to the perfection of the personality.

14. The existing system of government relations is pushing people towards the amassing of wealth and power. The government is doing this at any price, and the price is the development of greed, pride, and injustice.

15. Thus it is obvious that it is the government that is the source of the infection that turns people into beasts, into money-grubbers who are accumulating riches and power at any price, and are trampling upon all moral principles.

16. The governmental relations, regardless of how they have been changing during the ages, are characterized by the Original Sin, the vice of humanity.

17. Humanity will not atone for this sin without My Help. A just society's building needs as a foundation My Eternal Knowledge and Its use by the people.

18. Then, a hope will appear and a guarantee for the building of a just society for the people. And precisely then, the desired conditions will be attained: a government for the people and not people for the government.

19. Such conditions can be created on the basis of My Laws. Therefore we must build on Earth governmental relations resembling My Kingdom. These are relations that provide conditions for the perfecting of the personality to every member of society, to every human on Earth.

DICTION of October 28, 2004

1. I believe that My "Revelations" are of interest to people who are willing to reach the goal of their life here, on Earth.
2. Man must --- after familiarizing himself with the "Revelations" --- not only understand, but accept My thoughts and memorize them for life as his prayers.
3. After all, we are talking about the predestination of man, about the meaning of his life and the purpose of his life here, on Earth. All of these are discussed as being necessary for the perfecting of the personality of man to a point, when it resembles Mine.
4. Henceforth, the significance of the "Revelations" will become clear, in the sense that they represent not only a preparation of man for My great tasks, but that they are designated also to help man to formulate the general principles for the perfecting of his personality. This can be accomplished when man became familiar with My Knowledge, which will be the basis of this process.
5. My principal task is, has been, and will be to shape the view of the people about the Creator, to impart my Eternal Knowledge, and give the Light of My Knowledge in profusion to all people, to each and everyone of them.
6. The people who are listening to Me are few, and the ones who are actively working together with Me are even fewer. I select My Assistants and entrust to them My Great Deeds that are difficult but respectable.
7. I select and prepare such people for a long period of time prior to the commencement of our work. I endow them with abilities and talents not for their own Benefit but for the Benefit of my Great Goals, since only talented and gifted people can be by My side.
8. This is My Gift for their diligence, perseverance, and Faith in Me, now and during their previous lives. Their designation and My task for them is to work off, to put to good use completely My Gift.
9. I'm giving this Gift to them, but I am also asking them as to how they have used It, because man must share My Gift with other people. The more man shares My Gift with fellow humans, the more of It will be given by Me to him.
10. "The Daily Bread of Knowledge," given by Me, must not be kept by individuals regardless of their specific gifts; it must be distributed to other people for the purpose of their educational attainment.
11. Here is another key concept: My Knowledge is growing, when It is shared in

a sincere way and the recipients are filled with this "Daily Bread." They are then transformed from obedient beasts into men-creators who evolve and perfect themselves to a level, at which they will resemble Me.

12. The Hand, giving away My Knowledge, will never be empty and it will fill up with My Reason My people on Earth. And then My Plan to build a just society in semblance to My Heavenly Kingdom will become a reality, and My Assistants will be distributing the daily bread of My Knowledge with hands that will never be empty. I keep increasing constantly the contents of their Cup of Knowledge. The more you give away to fellow humans, the more you will receive in return.

DICTION of October 31, 2004

1. Faith always gives an opportunity to man to perfect himself. Man himself ought to change the situation, or I shall do this.
2. Man can be shaped and changed only when faced with extreme, with very difficult conditions or circumstances that require the making of responsible decisions.
3. All rapids and turns, all obstacles in life at any level (of any scale) are created by Me! Everything is evolving in accordance with My plan; a situation is developing, which will find its logical conclusion as a leap upwards to the next step. I control the situation, I decide everything on Earth, and there cannot be fateful decisions without Me!
4. And now we have come to the crux of the matter. It is necessary to explain why all this is centered on the material man.
5. Your outer shell is a temporary clothing; it keeps altering, it keeps getting worn out. Is it really possible that so much time, millennia have been wasted on "temporary apparel," i.e., on material benefits.
6. Therefore I'm talking now about My Religion and My Eternal Knowledge, that are designated for the material man, but I'm thinking about his Eternal Soul. It controls man always, and educates, heals, and changes the human being, his very essence. It is necessary to heal and change his soul, since it determines the behavior of man; it leads him.
7. The Soul is Eternal, but it also needs perfecting.
8. I am teaching, I am checking the Souls of men here, on Earth, where they are

alienated from My World. I am doing this in preparation of their work in other conditions, in the Spiritual World.

9. Your Souls are like "astronauts" who have been torn away from My World and are in a situation characterized by the limited size of the spaceship "Earth." Not all of the "astronauts" can adapt themselves to such conditions, not all of them will pass through the trials. Some Souls start to panic, give up the controls, forget why and what they are doing aboard the spaceship "Earth."

10. Their goal is to fulfill the functions of an operator of a "spaceship," i.e., to control, to rule on the spaceship "Earth" in My likeness.

11. It is necessary to shake, to shock the Souls, to teach them to accept any conditions adequately and react to them properly.

DICTATION of November 1, 2004

1. We have moved to more responsible knowledge that determines the inner essence of man and his behavior in the Spiritual World – the Eternal World whose laws are determined and controlled by Me.

2. What part of man is in the Spiritual World? It is clear that it is his Soul. If we were to say, "in semblance to God on Earth," the comparison is possible only on a Spiritual Level, when Man's Soul is becoming comparable, at least partially, with God's behavior under these conditions.

3. The evolution of man is the perfecting of his Soul that is in another World --- the Spiritual World. His behavior, his social behavior, his observing of My Eternal Laws are the results of the perfecting of his Soul.

4. It is possible to say furthermore that not only his behavior as a social creature, but also his health and his longevity are determined by the level of the perfecting of his Soul in the Spiritual World.

5. God's Blessings are meted out, according to the level of the perfecting of man's Soul, as a reward for his righteous and correct behavior. Man receives material benefits and means only through his Soul.

6. If the mechanism of the perfecting of the Soul of man is turned on, then he begins to understand that the material values are perishable and that he his shell is mortal, but that the Knowledge of the Spiritual World is Eternal as is his Spiritual nature, since the Spiritual World and God are Eternal.

7. All is eternal --- and you are eternal, too but only in the Spiritual World.
8. Now we have to analyze why you are here and what is your goal here, on Earth, and what you must do here.
9. We already discussed life on Earth. Earth is to function as a testing ground for the development and perfection of the human Soul. After all, it is the Soul that determines the behavior of man.
10. I repeat: The way man behaves in society represents a display of the level of the evolution of his Soul in the Material World.
11. This is the important thing, this is the criterion for all!
12. The behavior of Man is the mirror reflection of the level of evolution of His Soul!
13. And if the Soul is healthy, evolved, perfect, then man's behavior is virtuous in the Material World.
14. If the Soul is at a low level of development, then the result is a man-beast, a man-animal.
15. This is the reason why we talked about the necessity of the perfecting of the Soul, as a mechanism for control of human behavior.
16. Like Soul, like Man!

DICTION of November 2, 2004

1. The perfecting of the personality of man in the Material World is the perfecting of his Soul in the Spiritual World!
2. This is the thesis for man for many Centuries.
3. There is a connection between the Worlds (the Material One and the Spiritual One) through the perfecting of the personality of man by means of understanding God, familiarizing himself with Religion, and Its recognition and acceptance.
4. But it is possible to say this in another way: The perfecting of the Soul of Man takes place, when he is in the Material World and there he believes in God, in His deeds, believes in His Eternal Laws, and Loves Him and His children (fellow humans). Man hopes that he will master God's Knowledge, and God will reward him with His Wisdom.
5. This is when two Worlds are connected in one man; this is when man's personality in the Material World will reach in its evolution the level of God's likeness in the Spiritual World.
6. This is the genuine happiness; this is when you will receive God's Divine Gifts: this is when you will be blessed by Me with eternal life, in accordance with My Laws; this is when conditions for man's rule on Earth are created!
7. These are the degrees of development and the horizon of man's evolution and his tasks that are centered on working on himself in the Material World.
8. This is where My Religion is leading to, what It promises, when the bright future of man and his clan on Earth is discussed.
9. It is impossible to reach a level of perfection that guarantees an Eternal Life during only one short stay on Earth.
10. However, it is possible and necessary to use to the maximum the given chance of the temporary stay on Earth.
11. People ought not to waste their precious time in search for benefits for their physical body, for their "clothing."
12. Not all humans are able to use efficiently the time allotted by Me. Only a few can put to good use the limited time of their sequential stay on Earth.
13. If man would spend half of his time (during a consecutive life cycle)

familiarizing himself with the "Daily Bread of Knowledge," then this would be good and worth the effort.

14. However, historical evidence spanning millennia reveals that the degree of efficiency of the time allocated by Me is low, and oftentimes it is equal to zero.

15. Thus, instead of a man, instead of a highly evolved personality, the result is a primitive creature --- a man-beast or a man-animal, a creature that is striving to be in power for the benefit of his temporal body.

16. It is possible to forgive man, but the percentage of people working on themselves is so very low!

17. And this problem is not disappearing. Most humans do not want to work on themselves. All of these people are too preoccupied with their bodies. Their work on perfecting is directed at finding ways to provide more comfortable conditions for their bodies on Earth.

18. Huge human and financial resources are squandered in the name of the development of weapons (that kill man himself) as well as for the procurement of material benefits.

19. There is no explanation for this, and there is no forgiveness for this. I keep punishing you and directing you to the correct road; I keep destroying towns and countries through catastrophic natural phenomena, thus demonstrating that all is a vanity of vanities.

20. Yet people truly do not understand My Signs, and as if on purpose, they are trying in opposition to Me, against My Will and My Powers, to consolidate their homes and to create conditions of comfort for their bodies.

21. What a mulish obstinacy is in man!

22. How obdurately man is wasting his valuable time in attempts to provide more comfort for his "shell." He is developing science and technology only for the sake of his comfort.

23. He had refined himself so much that he had surpassed himself in the endeavor to create unheard of conditions and surroundings for his existence. He had made sure that his body is well taken care of, to the point of being pampered and not exerting itself with physical labor.

24. I do not want even to enumerate all that man had thought up for the sake of the comfort of his body! Man's fantasies are boundless; all of his abilities and talents are focused on the creation of extreme comfort for his body.

25. All of My arguments, all of My attempts through My Sons, by means of the Eternal Knowledge, to bring to reason the people on Earth and to direct their

attention to the Eternity of My Spiritual World, have stumbled upon the aggressive rejection of humanity.

26. It is shocking that while striving to find comfort, man is building churches, My Houses, is administering religious rites and is observing related customs, but is doing this as an expiation for the violation of the Eternal Truths.

27. Man recalls his Soul only on his deathbed. The man-beast is an eternal wanderer!

DICTIONARY of November 3, 2004

1. We are considering very important questions regarding My Religion --- the relations between the Material and the Spiritual Worlds.
2. These questions are important, but the principle-based answers, found in all ecclesiastical canons, are incorrect and determine the erroneous view of humans about religion.
3. Man has always been tormented by the questions: "What is there, beyond the horizon?", "Is there an eternal life?", "Is there simply life after death?"
4. The entire Material World is finite and is defined by temporary frames. Here, time is the "To be or not to be!" criterion; here, there is no eternity; here, everything is finite; and the time spent in the Material World determines man's life; his entrance into and exit out of this World.
5. The paradox of the Material, deceptive World is rooted in the fact that time is a fast-flowing process, but man lives in it in an illusion of infinity.
6. Man cannot do anything serious, cannot concentrate on his personality; he has no time, he is like a squeezed lemon; he works untiringly for the benefit of his body.
7. And it seems to him that the time of departure is far away, and that he will manage to do everything he is supposed to do.
8. But he does not succeed to accomplish what he had in mind; a bell rings, when he is at the midway point, a signal that his assignment is over, and then man is carried off into an endless Expanse.
9. For man, there is the unanswerable question, "And what is there?" Only on his deathbed man remembers suddenly that there is God, God the Father, God the Intercessor, and then he begs for forgiveness for his dissolute life and promises as a matter of fact that the next time he will fulfill all that is expected of him, that he will be obedient, religious, and righteous.
10. But now he has not been successful. Forgive me, Lord. Take me with You. Where is "with You?"
11. Where is God supposed to take man? To the Spiritual World?
12. But only now man is compelled to acknowledge voluntarily the existence of the Spiritual World and his Soul, the existence of God and His Kingdom.

13. It only man would have known about that, if there would have been sufficient supplies of time to perfect his personality on Earth, then he would have been able to meet his Heavenly Father and would have received from Him a blessing for Eternal Life in the Spiritual World, where God is the Master and the Ruler.

14. There, behind the "mirror," is the real life in the Spiritual World.

15. When man would understand and accept the existence of the eternal Spiritual World, whence he is coming and where he is going, as well as the presence of the Heavenly Father and His Kingdom "there," then the behavior of man "here," on Earth, would be such that he would be able to understand its impact and be responsible for it. He must keep in mind that his stay in the Material World is brief.

16. There is no and there will not be an eternal life for man in the Material World; he has to be a diligent master of such an expensive and finite object as time.

17. Man looks at it from Eternity for a second in order to test himself in "real action."

18. I would like people to understand that their life here is but a second. Time is so limited to acquire the "Daily Bread of Knowledge," and it is simply foolish to talk about one's "clothing" due to the lack of time for it.

19. My Son's words must be recalled at this short stop, "Man is not alive by eating only bread." He is alive with the help of the "Bread of Vital Knowledge."

20. This is why man is here – to increase and develop His Knowledge. This is the Goal of his life; this is what man should understand.

21. The time given to man is so little, barely enough for the acquisition of Knowledge. Thus, there is absolutely no time left for the accumulation of valuable material things.

22. All of you must remember about the Spiritual World and to behave on Earth, in the Material World, in accordance with the Spiritual Law.

23. Thus Faith will appear in Eternity, Love for the Creator and Hope that man will return to the Spiritual World; Wisdom will be given by God for a righteous behavior in the Material World even if man's stay there is as brief as an instant.

DICTATION of November 4, 2004

1. We analyze man's chief questions: "Why am I here?"; "What am I?"; "Who am I?"; "What am I supposed to do here?"
2. Man has always been trying and keeps trying to find answers to these questions.
3. This happens especially at the end of one's life or already at one's deathbed, when man realizes that he is going to meet God and is going to be held accountable for his life, which has been as a rule confused, stupid, and depraved.
4. Of course, I do forgive My dissolute child. I feel sorry for him, but he will embark on a new cycle of reincarnations on Earth, and for the umpteenth time he will be learning how to live, and having forgotten the previous lessons, he will start to pamper his material body again. What a pity!
5. Man cannot figure out why he is here. Nobody explains to him what is his designation.
6. This vicious cycle is eternal. Man keeps falling down to the level of the beast, rushing about, worrying needlessly over things he cannot comprehend.
7. The Church, where he turns to, where he runs to, cannot answer his question, why he is here, and advises him to look for the answer in the Holy Scriptures which are incomprehensible to him.
8. On Earth, the Evil One promises man the Golden Calf, guaranteeing all benefits of the Material World and tranquility to him. "The more you take from the Golden Calf, the more benefits you will receive and procure."
9. This is the criterion governing the Material World: "You will receive everything, you will buy everything, if you have the Golden Calf in overabundance."you you you you you
10. The contemporary business is represented by the newest technologies that are focused on perfecting the ways and means used to deceive man for the sake of the benefits of the Material World.
11. The thesis, "Rule the World, the Material World!" is based on the Evil One's thesis, "All can be bought , all can be sold -- as long as the price is acceptable!"
12. Once his stomach is full, man does not think about his evolution, his Soul,

the Goal of his life on Earth. And why does he need to think about it?

13. It appears that once time for life on Earth has been allotted, it has to be used to the fullest, i.e., rule in spite of everybody and indulge yourself at any price. After all, aren't all methods feasible and justifiable?

14. The price, regrettably, seems to be rather steep -- the time wasted in the form of life on Earth.

15. But do understand Me correctly, since I do not mean that you need to throw all away and become a monk.

16. It is not at all simple to adhere to the conditions of life in the Material World, while you ought to use your powers to develop your very essence, your personality for your future eternal life in My Kingdom, i.e., in the Spiritual World.

17. A golden middle must be chosen between the demands of the Material and the Spiritual Worlds.

18. The road towards the Light of Knowledge, the "Daily Bread of Knowledge," is the one leading to Me, while the one to the "Daily Bread" leads to the Evil One. Do you perceive the distinction?

19. In My variant, the "Daily Bread of Knowledge" is Eternal, while the Evil One's "Daily Bread" is for use on Earth or for catering to one's body with the help of material objects.

20. The road with Me is thorny and is linked to the necessity of self-restraints. Mine is an upward road, but the Evil One's leads downhill; His road is oriented to the benefits of the Material World, to their procurement at any price.

21. Man is weak, and thinks that the path of the Evil One is an easy and a pleasant one to follow. He squanders all of his abilities on designing technologies that are to be used for the procurement of material things and benefits at any price.

22. This futile race draws not only man and his clan but entire nations. The invariable criterion is, "The world is ruled by the rich."

23. But if I perceive of even a minor attempt by a man to understand Me, an attempt to comprehend My Religion, My Eternal Laws, I shall help this individual in everything that I consider necessary.

24. Such a man has an opportunity and a hope to save his Soul. Yes, at least I shall grant him salvation; I already do not speak about evolution for life in the Spiritual World.

25. This is, regrettably, the goal of rare individuals, the Ones Who Are Listening

to Me. This is the reason why I treasure, I value them highly and support them -- because I ask them to help Me in the promotion of the foundations of My Religion and My Eternal Laws amidst the crowd.

DICTIONARY of November 5, 2004

1. The two Worlds have become so intertwined that any action in one of them is reflected in the other one, and it is impossible to separate them.
2. I have planned in such a way that "practical tasks" are given in the Material World, where man's essence, his Soul, is materialized for a brief period of time for the testing of its abilities in material form. This is done to enable man to rule on Earth in semblance to his Heavenly Father's control over the Spiritual World.
3. Do not cut this connection of the time periods -- the finite time in the Material World and the Eternal Time in the Spiritual World.
4. This has to be understood, and then all that transpires in the Material World will be comprehensible and easy to accept by man.
5. I understand that this is difficult to absorb by most people. In the course of millennia, I prepared the Eternal Scriptures, which help people to peer into the Spiritual World and to understand man's actions "there" and "here."
6. We already pointed out that the answer to the question, "Why am I here?" is simple! It is the testing of the existence of man in conditions that are different from the ones of the Spiritual World, when man is given a very important right. This is his right to fill up the Cup of Reason and to try to rule over everybody and everything on Earth, and create here conditions for the existence of his fellow countrymen, in semblance to My Pyramid in the Spiritual World.
7. All of this must be carried out also due to the fact that prior to his transition into the Material World, man is given on assignment for this brief period of time that you call life.
8. Man should gain an understanding of this assignment, find his place on Earth, and adhering to My eternal Rules and Laws, reach a point in the perfecting of his personality, when it will resemble Me "There," in the Spiritual World.
9. I and the ones who are with Me can glance at the Material World. If I feel that My help is needed, then I shall intervene, since the Material World is transparent to Me and so are your actions -- transparent as well as predictable.
10. It is understandable that all movements of man -- and they are of simple and lecherous nature -- are evident and can be foretold by Me.
11. I see the realistic prospects for man -- what will happen with him, where his end is, and whether his baggage of Knowledge will be refilled and his level of Wisdom will be regained prior to his return to Eternity.

12. It is becoming clear to Me what man has been able to accomplish here, on Earth, what has been his potential, how he has been using it, and what he is bringing back to Me.

13. It is obvious that more often than not the result has amounted to nothing or worse, it has been negative – for the individuals who have not passed the test through life on Earth.

14. This is an awfully useless life, actions without any benefit for the human Soul.

15. There, in another dimension, nothing is to be taken in the capacity of an answer for one's deeds.

16. The Evil One has dulled the thinking of the people by showing them the Golden Calf under the Mountain of Moses. And the people on Earth, having accepted this doctrine of the Evil One – as I already pointed out -- work very diligently and untiringly for the sake of a comfortable life here, on Earth.

17. Man forgets about the benefits of an Eternal life, because he thinks that what is most important is life here. He is so very mistaken that he concentrates all of his powers, knowledge, and every bit of his intellect on the securing for himself a cozy existence in the Material World.

18. The result of such actions could be most tragic. The Cup of Reason not only is not getting refilled, but is actually emptying due to man's vanity in the Material World.

19. The making of the right decision by man "Here," on Earth, while he is separated from Me, is My cardinal Task for him.

20. I would like to see how man would behave in the conditions of independence in the Material World.

21. Righteous life on Earth is the proper reaction to My Assignment, while the level of the accumulated Wisdom is checked by Me on the deathbed.

22. Under these conditions, I am giving the final grade, the overall evaluation of man's life (in these settings of the Material World) at this crossing over to the Eternal World, when he cannot rectify anything.

23. In all honesty, when I see that man has not fulfilled even a small portion of his work, I send him back for a short time to the Material World in order to complete his tasks.

24. In the case that his actions are helpful in raising the level of Wisdom during life in the Material World, I take him back in the most unexpected way.

DICTATION of November 6, 2004

1. The interaction between the Worlds (the Material and the Spiritual Ones) determines man's tasks and possibilities when transitioning from one to the other one the of these Worlds.
2. As discussed before, the perfecting of man's personality in the Material World is a perfecting of his Soul in the Spiritual World.
3. I already stated that here man can make his choice: either moving up with Me, or down – with the Evil One.
4. People do not understand that they have to make these choices themselves, that they have a freedom of choice, that there is hope for the perfecting of one's personality.
5. However, people do not want to think about the other, Eternal Life, about the necessity of preparation for it now, on Earth.
6. All powers are directed at obtaining maximum comfort for the existence of man's body in the Material World.
7. All is done for the sake of the body, for the guaranteeing of comfortable conditions for it!
8. All business theories, all science and technologies, all creative powers, are devoted to securing the best possible living conditions in the Material World. The reason for this are the rewards for his labor – man's social status and the level of material benefits.
9. All is for a brief instant of bliss on Earth!
10. This is not the Purpose of human life; man is not supposed to live for the benefit of his body.
11. Do comprehend: You are here for the sake of your life "There"!!!
12. If this is understood, then everything becomes clear: what is to be done, how to fulfill one's objective, given by Me at the transition from the Spiritual World into the Material World.
13. You say, "Give us an assignment, designate it, and we are going to fulfill it.

Then everything will be clear to us."

14. But this would have been too simple, truly elementary, for man!
15. After all, isn't man's cardinal task getting close to Me, progressing in a and his evolution to a level similar to Mine in the Spiritual World?
16. The test of man's independence is his ability to find himself his designation and make the right choice regarding the goal of his life on Earth.
17. The materialization has been conceived by Me as a brief flash for the testing of man's Soul on Earth.
18. I am pulling you out of Eternity, and am sending you to be tested for maturity, wisdom, and independence.
19. I was hoping that the Souls would be happy, that I and you would be happy in the Spiritual World, but it turned out that only the physical bodies were happy in the Material World.

DICTATION of November 7, 2004

1. The correlation between the Material and the Spiritual Worlds is a very complex, fundamental, and above all a controversial issue.
2. All religious currents endeavor in a very competitive manner to demonstrate their significance, their importance. They explain in their own ways the Laws of the Spiritual World.
3. Not one of them has a precise idea about what the Spiritual World is. It is a reality, which is associated with life after death!
4. All churches endeavor to prove that they know things that nobody has known, does not know, and will not know.
5. All of them, each one in its own way, offer their up and will and peculiar interpretation of the Spiritual World and My presence there.
6. How much fog, lies, and simply deception?!
7. Only I can explain what the future holds for man, what kind of a meeting will take place, what kind of questions I shall ask, and what will transpire later.
8. I would like to explain to the people – not via the churches that have

discredited themselves – but through the Individuals who are Listening to Me, what is the meaning of human existence in the Material World and what Eternal life is in the Spiritual World.

9. I am determined to execute and I am implementing My plan for the building of a just society at first in one nation (Russia). At the top of the Pyramid of power, there will be a man selected by Me.

10. It is important for Me to show that it is possible to build such a society in the Material World, but only if the power-holders are people who are Listening to Me, who are My Assistants that are controlled by Me from the Spiritual World.

11. I would like to confirm and show to all that if your World is ruled by the Spiritual World, it is possible to rely on the righteousness of the deeds of people and to hope for the creation of an equitable society.

12. It is important that the people chosen by Me would be able to demonstrate to their fellow humans their abilities in the personality-forming process in the Material World; to show that success crowns any action that is in harmony with God's Will, that if God's Laws are observed, the perfecting of man's personality and his preparation for Eternal life will be accomplished in the Material World.

DICTATION of November 9, 2004

1. The periodicity of man's return to Earth depends on many factors, including the degree of fulfillment of his designation.

2. A question arises: If he (man) keeps coming back to Earth frequently, then from whence is he returning?

3. Man is constantly in the Spiritual World, in the World of Eternity, or in the World of the rest of the Eternal movement.

4. In the Spiritual World, which cannot be felt by humans, the material man certainly is not present. What is present is his substance or his Soul that is also in a state which cannot be felt from the perspective of the Material World.

5. In other words, the Soul is his substance – the Eternal Soul in the Eternal Spiritual World.

6. By means of the materialization (of man) his Soul glances at the Material World for a short period of time in order to test its abilities for the filling up of the Cup of Reason.

7. Thus, the purpose of the existence of the Soul (or according to you -- of a human being) in the Material World will be his/her perfection in harmony with their program: the filling up of the Cup of Reason and the testing of his/her ability to rule independently on Earth.

8. The question, "And where is this Eternal Life?" has not been discussed in the Commandments. The Commandments provided the very basis of a righteous behavior without any discussion of the intricacies of the interaction between the Material and the Spiritual Worlds.

9. The Commandments were prompting righteous deeds for centuries, and were helping to explain Good and Evil.

10. It is necessary to finally speak the truth of man's designation. This is important because only his body is material, while his truly vital part, his Soul, remains with Me in the Spiritual World. Thus, it turns out that man's body is stuck in the Material World, but his Soul is in the Spiritual World.

11. This is why man is bustling about between the Worlds without comprehending what is more important than anything: Material life or Eternity in the Spiritual World.

12. Religion does not explain the most important question: What is man in the Material and Spiritual Worlds?

DICTIONARY of November 10, 2004

1. During the transition from one World to another one, especially during the materialization of man, his eternal substance, his Soul, passes with him into the Material World, but remains in the Spiritual World in terms of its form or appearance.

2. Therefore, when I say that the Soul remains with Me in the Spiritual World, I have in mind the form of the existence of the Soul.

3. Once more: The Soul belongs to the Spiritual World, which cannot be felt by the material man. It cannot materialize, and this is the reason why it remains in the Spiritual World in terms of its condition (as far as its form is concerned). It remains with Me, in the Spiritual World, but simultaneously its physical body has materialized, and the Soul cannot stop to rule the body that belongs to it.

4. This is why I say: The Soul is always with its body, but cannot be felt with the body because It is with Me.

5. This matter is very important and determines the goal of religion.

6. Generally speaking, religion represents an explanation to man of his designation, as well as an explanation of the relations between the Worlds and of the relations between the material body and its Soul in Eternity.
7. The man who is devoted to My Plan, who is listening to Me, or simply one who is righteous, comprehends his designation, orients himself in the Worlds and climbs up the ladder of his evolution. Its topmost step is an Apostolic position.
8. My task at the present stage is to give a correct idea to the people about My World, about the Spiritual World, and to demonstrate that the Material World that you reside in also belongs to Me and is governed by Me; yet, it is designated to test the independence of your Soul, which is evolving through Eternity.
9. If I could input this Knowledge into you, if people were to believe in Me, it would not be necessary to revert to the use of the Eternal Commandments or the "rules of human behavior" in the Material World.
10. This is My Task, My most complex Task!
11. The periodic materialization – this is the fate of humanity and a millennial experience of its evolution.
12. Irrespective of the seeming simplicity of the relations of the Worlds and of the designation of man, he has not been able during all of these thousands of years to get close to the solving of his problem – his perfecting, the perfection of his Soul and the filling up of his Cup of Reason.
13. Man does not know, and does not desire to know about his brief stay and about his tasks, associated with his life on Earth.
14. Religion has not made clear to him that he is eternal, that he is constantly in another World, and that he had arrived here only for a short time, in order to gain experience in self-rule on Earth.
15. However, it is difficult to explain these Truths to the obstinate man; he does not want to look at them from other positions. He believes only in what he sees, feels, and senses.
16. Everything that is not within the boundaries of the Material World is alien and not comprehensible to him and therefore can be rejected. Thus man is reduced to the condition of a primitive animal, and lives according to the principle, "procreate and multiply," without even bothering to ponder seriously over the meaning of life and his designation in this World.
17. He does not have any time for this; he wastes his time in efforts aimed at acquiring knowledge about the Material World that will help his body to enjoy

comfortable existence in it.

18. What happens when you have reached the objective of total bliss for your body? What follows after that? Villas, palaces... What else is needed for this Material World?

19. It does not pay to waste one's precious life for one's body; the meaning of human life in the Material World is not this one.

20. I declare: The life in the Material World is a life for the sake of Eternal Life in the Spiritual World.

21. Here is the goal: Knowledge, the filling up of the Cup of Reason, the evolution of the human Soul to the level of My likeness "There," in the Spiritual World.

DICTIONARY of November 14, 2004

1. What is an Original Sin?
2. The term "Original Sin" is mentioned for the first time in the Bible.
3. There, it is explained that the Original Sin of humanity is something pertaining to all, that it relates to the requirement that all people cleanse themselves and accept My Religion.
4. And here is the specific trans-generational curse that is contained in the term "Original Sin," and is applied by Me towards the clan, the family, and the individual family members.
5. When I speak about the Original Sin, in the case when it is applicable to a concrete person, I have in mind the curse on or the sin of one of the members of the clan that is then transmitted to all of the rest and from generation to generation.
6. This sin carries with it the burden of the clan, its diseases and failures, which can be prayed for and removed with difficulty.
7. The prayer of one man can erase the negative impact of his sinful behavior.
8. The wrong behavior of this man is his problem, but if it does affect the interests of another clan, then it is already an intense inter-clan confrontation, which either unites or separates the energy of the clan.
9. It is difficult to remove the negative energy; time will be needed, and foremost of all, responsible attitude towards religion, whose foundations are to be accepted not only by the righteous individuals but by the entire human race.
10. The fusion of the energies of the members of the clan, their realization of the significance of faith in Me will provide a helping factor for the energetic lifting of the curse. It will also facilitate My actions aimed at helping the clan.
11. I do not want to intervene in inter-clan conflicts.
12. This is not My level but the one of local fortunetellers. The people who listen to them consider such interference appropriate. Him him him. She is being
13. The sin of the clan will be lifted from all of its members with My support and assistance, provided that all members of this clan are moving conscientiously to the acceptance of Faith in God.

14. Why do I call the transgression in question "Original Sin"? The reason is because this sin of the clan, of the family, is a cardinal one in terms of strength and significance; it is the biggest one. In other words, this amounts to an impulse, an impetus for a failure, for an ailment.
15. This is indicative of the absence of a defense mechanism of the clan and a lack of belief in God, the Chief Defender of the clan.
16. The clan can transmit its sin to another clan.
17. This can take place at every opportunity. Even a slip of the tongue, or a careless statement could provoke an attack against a certain individual.
18. The Evil One also has strong fighters who possess enormous destructive energy. A process of not only educating the individuals but of their destruction as well is going on; a perennial struggle between Good and Evil is taking place.
19. It is possible to simply ask Me to forgive all, under the condition that this is done with prayer and Faith.

DICTION of November 18, 2004

1. The most important matter regarding the understanding and the acceptance of Faith in Me, in My Religion, is about the comprehension of and the answer to the question, "What is There?"
2. Man, not having the possibility to check, to feel, as is accepted in the Material World, probably would like to know what is the Spiritual World, what is he supposed to be prepared for, what is awaiting him "There," beyond the horizon?
3. Fear of death, fear of the unknown push man to commit unreasonable acts. This is also due, to a degree, to his vices that he cannot get rid of, and also up to a point, to his lack of knowledge of what is "There."
4. It turns out that all of humankind's problems are linked to the absence of information about the Spiritual World.
5. Pay attention: A man, who is on the threshold of old age, turns to the Church more frequently and looks himself for answers to questions related to his existence here, on Earth.
6. But actually he is not doing this on his own; it is his Soul that is getting ready

to meet Me in the Spiritual World and is looking for opportunities for the atonement of sins by My Altar.

7. The pleas of man, his begging for forgiveness represent a sign that he is acknowledging his mistakes. Yet the most important thing is the recognition of My Religion and the existence of the Spiritual World and My Eternity.

8. It is a pity, but oftentimes this happens too late and the expiation of transgressions is impossible, since very little time remains for man in the Material World.

9. All that is left to him is to acknowledge his sins, his vices, and to beg Me to forgive him.

10. Man's Soul is responsible for what he has done on Earth, and It will be held accountable in the Spiritual World for all of his actions.

11. Man's eyes ought to be opened to the Spiritual World, and he must be shown that his Soul is eternal and It is with Me, while the Material World is but an outburst that has broken away from Eternity! This must be done in order to avert a belated repentance, to avoid living a useless life.

12. Aiming to make sure that man will not forget, and as a whole he does forget, I have scattered My Houses, where there are rays of Spiritual Light, where man will always, I repeat always, be able to find and enjoy tranquility and rest.

13. Only in My House the Soul will find the opportunity to touch the rest of the Eternal movement, to contact Me, and to receive My support and answers to questions pertaining to the Material World.

14. The more frequently man turns to the Church, My House, the fewer mistakes he is to make in life and the more able he would be in finding answers leading to the solving of problems in the Material World.

15. If man does not have constant Faith in Me and Love for Me, he has one path left – the one to My House, where he will find rest and Bliss.

16. In the case that man has Faith in Me and Love for Me, then his Soul is at peace, resting and blissful in his body, and then man is not forced to go to church against his will!

17. My Light is always in the Soul of man, and his Soul is always with Me, and always finds answers in Me to all questions.

18. My House is for this Soul – My entire Material World and My entire Spiritual World!

19. The Soul is in agreement to work together with Me, and in this case man –

the Man Listening to Me – is a creative worker and My Assistant.

DICTATION of November 23, 2004

1. The Spiritual World is the fundamental World. In it is formed the very essence, or in other words, the Soul, the eternal Soul of man.
2. In this World are created conditions for the rendering of the Spiritual part of man (the Soul) into a form that will be in the likeness of God. When in this form, man will be able to control and rule over objects on a planetary scale.
3. The Spiritual World is a cradle for the creation of man. The Spiritual World is his Home, the place of his residence, which is called Paradise in the Material World.
4. For the material man, the Spiritual World is Paradise, a place of Happiness and Love. It is considered (in the Material World) that this is an inaccessible, virtual place, a place that can be described only in the form of information, provided by people who have experienced clinical death. /Look at picture # 1./
5. However, the Spiritual World is not virtual. It is sporadically manifested in the Material World. These signs of It are given by Me in sufficient volume. Yet, only the people who are Listening to Me or people who possess unique abilities can sense My presence, which can be felt also via My A and in and in and assistants.
6. These demonstrations on Earth of the existence of the Spiritual World, its direct manifestations as well as the presence of My Spiritual Assistants and some ordinary people who are "There" (behind the Frontier) are sufficient. Contact can be established simply via channelers and is facilitated by means of physical devices of high precision.
7. The foundation of the Spiritual World is represented by wave processes; this is an energy of another, higher level of the evolution of Space that is defined partially by man as varieties of nanoenergy of the Material World.
8. The contact of the Spiritual and the Material Worlds is localized at the plane of nanotechnology.
9. There is no watershed-like divider between the Worlds; they are side-by-side, a continuation of each other; simply, the spiral of energy of the evolution of the Spiritual World is located at the next coil of the Pyramid of the Worlds of My Universe.
10. The top of My Pyramid is the World of Intellect, which determines the hierarchy of the highest Spiritual values of My Eternity.

11. Returning to the source of the Spiritual World, I would like to state that the Material and Spiritual Worlds are touching, and are transfused into one another not via jumps but smoothly.

12. The Eternal Soul of man, which is being formed for the next turn of the spiral of My Pyramid, for the World of Intellect, keeps returning periodically to the first level of the Pyramid -- for the attainment of education and the accumulation of the baggage of knowledge of the first level.

13. The souls of people who have passed through tribulations and have sufficient (necessary) volume in the Cup of Reason, pass to the next coil of evolution and never return to the Material World, but do return from the World of Intellect to the Spiritual World for testing and filling up with Knowledge of the Highest Level!

14. But for now, man is still in the Material World in its present form, at the first step (of his evolution) of the energy Pyramid of My Eternity.

15. Under these conditions, help for the Soul of man, who is still at the first step, could be provided not only by Me but also by the Individuals who Listen to Me and who are still in the Material World, as well as by the Souls of people who are at the second energy level in the Spiritual World (i.e., Paradise, according to you)!

16. Therefore, very frequently the souls of people, especially relatives who are already in the Spiritual World, are endeavoring to help or secure the road of people who are members of their family, clan or society in the Material World. These Souls contact indirectly, and on a number of occasions directly, their relatives. They are trying to guide the actions of people in the right and safe direction with all sorts of possible signs.

17. I see your deeds, I read your thoughts, and can materialize them. The people, who are in the Spiritual World (in Paradise or at a second energy level), can also see your actions but do not have the opportunity to influence man's life on Earth.

18. From here is their desire to help, from here are the unexpected contacts and dreams, since the Souls of the people of the Spiritual World do not want to leave without assisting the Souls of their relatives during the period of their transition from the Material into the Spiritual World.

19. As I stated, the proximity of the Worlds, the connection of their energies, allow the Souls of people of the more advanced high-energy level to extend a helpful hand to the people (i.e., to the Souls of the people) of the Material World.

20. The people of the Material World must know that besides Me and My Assistants, the Spiritual World Souls are observing their World, are watching

over them, and are helping them not to make major mistakes.

21. The Clan's Defense or the Defense of the Clan's Souls from the Spiritual World has an enormous significance and permits the rendering of assistance to man in the Material World, his safeguarding from mistakes, and the prompting of the only correct decision.

22. This is why the Extended Family (Clan) and the family are important; the kinship ties between humans allow the building of a bridge between the Worlds, and the experience of the preceding generation can be transmitted from the Spiritual World to the Material One.

23. The clan traditions represent a very potent defense of the Spiritual World for the Material man.

24. A righteous, praying Clan, its righteous traditions, represent the greatest help, besides Mine, for man in the Material World and his Hope for the saving of his Soul.

25. The Clan Love among members of the Extended Family – this is one more saving circle, still another Hope for happiness in the Material World.

DICTATION of November 25, 2004

1. The formation of the personality of man in the Material World is a mirror reflection of the processes of the perfecting of his Soul in the Material World.
2. The base, the lowest level of the Pyramid of Worlds, is the Material World. This is in accordance with the Pyramid of the structure of My Kingdom.
3. It is the Base of the structure of the Pyramid and, as Its Base, is large sizewise, since its size determines the number of people who are on Earth.
4. It is easy to guess what the base of My religious Pyramid would look like, were you to know the total number of the human inhabitants on Earth.
5. This is the size of the Material World; this is the size of the base of the Pyramid of My Kingdom.
6. Remember that the foundation of My Pyramid stands on the rocks of My Religion: Faith, Love, Hope, and Wisdom!
7. If people were to live in accordance with these foundations of My Religion, the base of the Pyramid would be reliable and sturdy. Thus, the whole Pyramid of the Worlds is being built in a geometrically precise way. Its proportionality and harmony can be perceived by looking at the eternal Egyptian pyramids.
8. The next, higher level of the Pyramid of My Worlds and him and him is the one of the Spiritual World, i.e., the one that man refers to as Paradise!
9. This nonmaterial World represents by itself a level of the evolution of the human Soul to a level of My Likeness.
10. Both Worlds, the Material and the Spiritual Ones, share a common border (regarding the transition zone), which is not real for the people, but is real for Me, My Assistants, and the human souls that are already in the Spiritual World. In an and
11. That is why this World is given the appellation of a Spiritual One. It is a World of Souls that have passed through tribulations and tests on Earth, Souls that are characterized by a perfection level which allows them to be side-by-side with Me and to be of My Likeness in this World.
12. The Souls of the people that are "There," and especially the ones of powerful and righteous Clans, are helping the people (the Souls of the people) on Earth. They are protecting them by helping them to avert making errors, by shielding

them from the vices of the Material World. They are also assisting in the creation of a benign atmosphere, which is conducive to the development of the human personality and the education of man's Soul in this World.

13. These Souls are together with Me and have the opportunity to communicate with Me and to ask Me to help their Clan's members who are on Earth.

14. I can influence the events in the Material World, and can have their pleas materialized. I can alter abruptly the course of man's life, if asked so by his relatives, and assist people on Earth, if their kin are praying for that.

15. The Souls of relatives cannot influence on their own the events in the Material World. However, if they perceived or sensed that certain events were developing unfavorably, they do have an opportunity to beg Me for help.

16. Thus, from here follows the influence of the Spiritual World, which is exerted in a very significant way on the life of people in the Material World; from here is the contact of the Souls of people of both Worlds; from here are the prescient dreams and hints not only from Me but oftentimes also from relatives, from members of the Clan who are in the Spiritual World.

17. The interlocking of the Worlds on a Spiritual level is felt truly very acutely in the Material World, especially in My Houses.

18. After all, I have chosen My Houses as points of contact between the Worlds, Houses that are built in abundance by all confessions. In these places of worship, man and his Soul can communicate not only with Me but also with My Assistants and with the Souls of the people of their Clan that are in the Spiritual World.

19. My Houses, Churches and Temples, are Testimonies to the contact of the Worlds or are places for communications (meetings) of human Souls on Earth and the Spiritual World.

20. There are not any better places on Earth than My Temples, where the Souls of the people of the Material World could relax and be recharged with new doses of energy, i.e., parts of My Power, that will help them to cope with the difficult life on Earth. Here they can beg Me or ask My Assistants to alleviate their life on Earth and to effectuate, to fulfill their plea.

21. These are Light-filled places that are guarded and defended by Me, and are always open to people who are thirsting desperately for My Help.

22. My Temples are windows of the Spiritual World to the Material World.

23. The next, highest level World is the World of Intellect, where reside the Souls of the people who have passed successfully the tests not only in the Material but in the Spiritual Worlds, too.

24. The World of Intellect is a World of My Likeness for righteous Souls that are ruling together with Me in My Eternity (on a planetary scale from your perspective). These Souls have a high rate designation – to rule at My level.

25. In semblance to the structure of the Pyramid, the Spiritual World and the World of Intellect – as is the case with the Spiritual and Material Worlds – are also in touch with each other in order to enable the transition and the contact of Souls of the closest Worlds.

26. However, the Souls that are in the World of Intellect do not have any more the opportunity to be (via the Spiritual World) in contact with and to exert influence on life in the Material World.

27. The energy levels of the Worlds are built according to the design of the Pyramid, in preparation for the evolution of the human Souls that is to proceed step-by-step to My elevation, up to My level of control.

DICTATION of November 26, 2004

1. If they are unable to influence events in the Material World, the Souls of people in the Spiritual World have an opportunity to at least warn representatives of their Clan through Me or via dreams about an impending calamity or imminent danger.

2. This transpires because, having found themselves in the Spiritual World, the Souls of people depart from the temporary scale of the Material World and end up in the state of rest of the Eternal movement, something that I discussed earlier in the "Revelations." In the Spiritual World, there is no time, and all events, in an Earthly fashion, past events and future ones, are all arranged in the same order of time, i.e., in Eternity.

3. In Eternity, there is no time, that is time which is understood by humans; all events are taking place now, while the timescale of the Material World is just a moment of the general course of events.

4. This is difficult to accept by people, because you live in something resembling a kaleidoscope of events, where the scale of periods is the calendar astronomical year.

5. But there is no time for Me in the Spiritual World; everything is happening now, and the Souls of the people of the Spiritual World can see what will happen on Earth, how it will take place, what will be the fate of the representatives of the Clans, what mistakes they are ready to make, and what the result will be.

6. From here come their own attempts to warn the Earthlings (terrestrial humans) and the pleas-prayers to Me to help the members of their Clan on Earth at a given (according to you) moment.

7. This is why I kept repeating many times that I see everything, rule all, lead all, and can influence your fate in the Material World.

8. Your time is a controllable factor, and your life, as well as your trial on Earth are controllable by Me. I can stop the process of teaching and testing at any time, depending on the degree of the preparedness of man.

9. If I saw gifted people; if I saw their deeds and the results of their righteous labor, I could extend their (term of) stay on Earth for any period of time!

10. However, were My assignment to have been completed by a certain individual, as is often the case with creative persons, then a correction is in store,

and I can take him. This will be done, when I have concluded that the prolongation of the life of the said individual could bring about the degradation of his personality, of his Soul.

11. Why degradation? The reason is that upon the completion of his assignment, man ought to cleanse himself before Me, analyze together with Me his mistakes, and having rested in the Spiritual World, plan (together with Me) the next trials and the next stage of the process of the perfecting of his Soul. This process will take place at another level of the Pyramid of power in the Material World.

12. It is very important that the human Soul, that man himself have passed through all phases of the Pyramid of power on Earth. This applies to all people, from the person following another one's commands to the individual making decisions.

13. This is when the principal examiner, the Evil One, can and endeavors to show off, to demonstrate all of you His might. He offers man (his Soul) all temptations related to power, including the chief one, the most attractive and the dangerous sin – the hubris associated with ruling one's own ilk.

14. During all terrestrial trials, during man's brief stay on Earth, the chief examiner, your main opponent, is invariably the Evil One – a resourceful tempter, who is testing you at the first stage of the development of your Souls in the Material World.

15. He "knows" all "benefits" of the Material World, all temptations. He creates them, and drags people into a life of sins and vices. He is the tester of the human Souls. and

16. It is practically impossible for any human being to pass by Him without getting trapped in His web. Man is too weak to withstand the many temptations, the many sneaky tricks that are challenging his fragile Soul.

17. Trust Me, the Souls of the righteous people are Souls that have been hardened by time, by centuries past and by the understanding of the Material World. They know the value of My Eternity and understand the process of the self-perfecting Soul getting prepared for the future eternal life in the Spiritual World.

18. For now, however, all trials are taking place on Earth, and the Evil One is tormenting the Souls of people with all sorts of temptations of the Material World. Thus is man caught in the Evil One's traps, and his Soul – having been deceived – is unable to fulfill the tasks I have given to it.

19. The price of vice, the price of sin, when man is entrapped by the Evil One, is the most precious value on Earth, i.e., time!

20. There is nothing more important for man on Earth; nothing is more valuable

than the time allotted for his life here!

21. Time is not going to be stopped!

22. The more efficiently man is using the time of the Material World in efforts to perfect himself, i.e., his Soul, the fuller his life is in the Spiritual World, the higher the level of his evolution between the Worlds is, and the closer he is to Me!...

DICTATION of November 28, 2004

1. The Spiritual World is a continuation of the Material World at a higher level of the Pyramid of My Structure of the World.

2. Life in the Spiritual World is a continuation of life in the Material World, i.e., this is Eternal life. The form of existence in these Worlds is different, but it is necessary to know that the spiritual part of man, his Soul, continues man's life in the Spiritual World.

3. This is the principle of My rest of the Eternal movement: The man of the Material World is in a state of constant development.

4. A question arises: For what length of time is It (the Soul) going to go back to the Material World? How frequently does It leave this World? And when – forever?

5. I said already that man receives a task from Me, and is obligated to fulfill it during his life on Earth.

6. I make corrections or give hints to man via his Soul, which is together with him and rules him, yet is simultaneously in the Spiritual World and is naturally in direct contact with Me.

7. The connection between the Worlds is in this. It is through the Soul of man, by means of this bridge between the Worlds that I effectuate My control over the Material World.

8. This is why the Earth is a proving ground for the checking of the levels of development and perfecting of the human Soul. I want to make sure that It is ready to accomplish further tasks that I assign to It and to man.

9. I told you that the Evil One is setting traps for you on Earth in order to render your stay here complicated, necessitating the making of choices between Good and Evil.

10. Here is the choice of man! It is an independent choice, without My participation. I intervene only when the situation is getting out of control and the degradation of man affects his soul.

11. You can recall your saying, "He sold his Soul to the devil!" This is the limit of My patience.

12. This man with a crippled, perverted soul must interrupt his stay in the

Material World, since he is not fulfilling his assignment, and return to the Spiritual World – not for the purpose of further perfecting but in order to be punished for his misdeeds.

13. I sort out the Souls of men, and dispatch them to different levels of the Spiritual World, depending on one's individual designation and the result of man's choice between Good and Evil.

14. By saying, "between Good and Evil," I mean between My assignment regarding the perfecting of the Soul of man and his behavior in the Material World, when he encounters temptations that prove to be irresistible to a person who has drifted into a life of vice and sin.

15. The making of a choice between Good and Evil is very difficult, because this amounts to a path upwards to the "Bread of Vital (Daily) Knowledge," or an easier path downwards to a "daily bread" and the comfort of the physical (material) body.

16. The Evil One applies all of His skills, all of His potential, in order to make sure that the conditions, when man is making his choice, would make it difficult for him to obtain the Eternal Knowledge of the Spiritual World but easy for the acquisition of benefits and goods in the Material World.

17. It is from the Evil One that the information that life is finite, that there is no continuation of it there, "behind the horizon," originates.

18. It is from the Evil One that the thought that nobody controls man's life on Earth comes.

19. It is He, Who says that there is no God, and that an Eternal World does not exist.

20. All blasphemous books are from Him; all sects are from Him.

21. I know all of this, and do not interfere in the process of the testing of man.

22. However, when I perceive that the Evil One has twisted the testing process in such a way that even not the individual man but his entire Clan or even his nation are headed to self-destruction, I do intervene.

23. This dead-end path, however, is only for the people who are on Earth at this moment.

24. Yet these are not all of the people; some of them are in the Spiritual World.

25. The people in the Spiritual World are better and cleaner (spiritually) than the ones in the Material World.

26. These human Souls have passed the tests. They represent, so to say, My golden genetic fund (pool).

DICTION of November 29, 2004

1. We are discussing now the relations between the Spiritual and Physical Worlds.
2. It is important, very important to know the role of the tester, the Evil One, Who has been assigned by Me the mission to check, to test in a most rigorous way people in the conditions of the Material World.
3. It is clear to all that the perfecting of the person without trials, without making a selection regarding Good and Evil, is impossible.
4. The role of the tester, the part played by the Evil One, is of enormous importance. I have given Him the assignment to subject you to the most complex trials. Thus I shall be able to understand who is who, and what kinds of tasks the individual humans are capable of executing successfully.
5. I am assigning to you tasks related to the perfecting of your personality (your Souls) in the Material World, and I assign to the Evil One simultaneously the task of testing you very seriously, in order for Me to know how I could use you in My Eternal Undertakings.
6. At the same time, I can stop all trials of the people, of the Souls whose righteousness I do not doubt anymore.
7. The Evil One is subjecting you to very challenging trials, but He is My subordinate as is everybody and everything in all Worlds.
8. He is doing this under My order, and is obedient and submissive to Me. Thus He – by testing you – is de facto helping Me to show you virtues and righteousness.
9. Promising all benefits of the (Material) World, He is creating irresistible temptations that only a strong, truly righteous human being can withstand.
10. But humans who are sinless are practically nonexistent, as My Son told you.
11. There are sins that can be forgiven and sins that are unforgivable by Me!
12. For Me, it is important that man would fulfill on Earth My eternal orders.
13. Man's cardinal sin, pride, will never disappear.
14. When man wants to be at least a bit higher than his ilk, he desires -- without any grounds -- to be higher than Me.

15. And this is the greatest sin, which is punished cruelly.
16. The Evil One is My tester with a thankless role (regarding you), yet a role that is very necessary for Me.
17. I am leading you upwards, and He is leading you downwards with the same strength.
18. The World is evolving forward only on the basis of a combination, an equilibrium of Good and Evil.
19. This is the reason why the Evil One is so important for Me.
20. I was sending My Sons on several occasions in order to show you the true path. This was happening, when people were reaching the limits of moral decay.
21. But this time, I Myself am intervening through the Ones Who Are Listening to Me in your process of self-destruction. I am doing this in order to prevent the end of life on Earth, where I want to restore the equilibrium between Good and Evil.

DICTATION of November 30, 2004

1. The testing of people and the evaluation of the level of self-perfection are different things.
2. If the trials of the people are conducted by the Evil One, Who is setting all kinds of traps for the fragile Souls, then My task is to gauge the level of perfection of the Souls of the people who are in the Material World.
3. I already said, "Whatever His Soul is, so is the Man!" The righteousness of man is determined by the level of evolution of his Soul.
4. This is why I interrupt the stay on Earth of the Souls of the righteous people who have passed the tests successfully, and bring them to Me, in the Spiritual World. When with Me, I assign to them a new task, which is at a new level of preparedness of the Soul – for assignments of another scale that fit the Spiritual World.
5. I have spoken a lot about the multiple stays of your eternal Souls on Earth. Your death, that you fear so much, represents the summing up of the results of the tasks given by Me; it stands for your answer to Me about the way you have lived on Earth, the results from the tests you were subjected to, and your transgressions and vices.
6. It is very difficult for Me to judge you, My Children, but with My Own (Children) the questioning will be a peculiar one – conducted with Love, yet in a strict manner!
7. I have My own scale for the gauging of the levels of moral decay or sinfulness. However, in all cases I look into the sources of sins honestly and scrupulously, and evaluate objectively all of the circumstances, characterizing the life of the individual human being and his actions under peculiar sets of conditions.
8. It is difficult, very difficult for man to pass the most challenging test, the one involving the ruling of and you and you and you will you be in his new will you will his fellow humans, who are also My Children.
9. The level of power of the Evil One, of His destructive strength is very high. It is He, Who brings about the collapse of humanity; it is His power that pushes people to self-destruction, people who cannot find solutions themselves. Yet, the last word is always Mine.

10. In the course of many centuries people, individually or as members of societies, have not learned how to fight, how to resist the Evil One.
11. You cannot wage a struggle with the Evil One in the Material World using conventional means. Your strength is rooted in the clash between the moral principles of Good and Evil.
12. You have only one possibility. This is righteousness and the movement of your Soul towards the Eternal Truths, towards Faith in Me, and towards Love for Me and all that is linked to Me!
13. When you stand up to the Evil One, then you are shaping your Soul, you are moving to Faith and Love. In such a case, I am your intercessor, and shall always prompt and direct you to the true path!
14. But when the scale of the conflict reaches the level of governments, then the Evil One's opposition to Me becomes evident, and the Good-versus-Evil confrontation is elevated to a planetary scale level. Then the fate of humankind on Earth is contingent upon the decisions of your governments.
15. I have in mind a war on a global scale. Here, as a rule, you cannot pass the tests successfully, since wars between nations are moral failures of another scale. They are unnatural, and I intervene in such conflicts compelling the governments to stop the destruction of civilization.
16. The organizing of governments, based on "isms" (such as liberalism, capitalism, socialism, communism, fascism, Nazism) is a process that I alone control. This is due to the fact that in practically all cases this ends in conflicts between nations.
17. I think that now you can understand the level of tests, their scale for the individual person and for the governments of all countries.
18. These are different poles of acceptance of your decisions. However, more significant and important is the level of man's development, the level of evolution of his Soul, since precisely from this are formed the moral foundations of a government and its system of jurisprudence.
19. An equitable society can be considered only such, which is led by a government whose foundation is not a mechanism for the suppression of the individual, but provides conditions enabling humans to evolve to the level of the man-creator, the man-constructive toiler!

DICTATION of December 3, 2004

1. The teaching of My Eternal Knowledge, the perfecting of the Soul of man is not an end in itself. It is a part of the general process of the forming of man's Soul to a point, when it resembles Mine in the Spiritual World.
2. The most significant task of man is the forming of his Soul in such a way as to be of My Likeness. Only then man (his Soul) will be able to receive My Wisdom and a fitting place for his Soul side-by-side with Me in Eternity.
3. In order for this to be accomplished, the Material World and the necessity of passing through trials by the Evil One is a mandatory stage in the process of the forming of the personality of man, and is also the first, and if you wish, the fundamental phase in the evolution of his Soul.
4. It is very important to understand that the entire complexity of this World is directed at the forming of man's personality, of his Soul but only for "tomorrow."
5. This "tomorrow" is the future existence of man's Soul in the Spiritual World, which cannot be appreciated or felt from or in the Material World.
6. And herein is the whole problem: The Evil One conducts your testing, because this is a task that I have given to Him in accordance with My plan for your future. At the moment of your testing in the Material World, your future is rather illusory, or as you say, "virtual."
7. Under these circumstances, you have only one chance for this future, one that is based on your faith in Me!
8. And in the case, when you reject My "illusory" future, you transition into the real present time of the Evil One and surrender yourselves to Him. He leads you downward – for your acquisition of the benefits of the Material World – to the level of a man-beast.
9. Then you do not have any future and any prospect to pull away from the path of the Evil One. You transfer under His control, because you cannot even hope to pass through My Court.
10. And this place, where you end up in such a case, is called Hell, a place where you will be expected to behave like a beast, at a level even lower than the one associated with animals.
11. Extricating oneself, getting up and out of this place is practically impossible, and the criteria of evaluating this man-beast are quite different, and Mine and the

Evil One's attitudes towards him are very different.

12. I even do not want to deal with or show the rules of Hell. This is not interesting to Me; this is not for the Man-Creator, the Man-Constructive Worker, who I need, care about the way I do about children, support and lead to the Light of My Knowledge.

13. My path for My Children – this is the path together with Me at the next level of evolution of My Pyramid, at the level of the Spiritual World. You call it Paradise; so be it!

14. This should be the dream and the peak of happiness for the man of the Material World – the attainment of the level of the Spiritual World, of Paradise when the perfection of his Soul will enable him to be side-by-side with Me and to be in My Likeness in the Spiritual World.

15. This one is the most important of all tasks; it determines his future in the "tomorrow," where I am leading him to through "thorns."

16. Only through the trials of Hell, the bright path to Paradise can be seen --- the path to Me, in the Spiritual World!

DICTATION of December 5, 2004

1. People die, and their Souls – free from the obligations and demands of the Material World – are rushing to Me, and through Me, to the Spiritual World.
2. However, not all Souls pass the self-perfection, or if you wish, the maturity tests successfully, due to their failure to fulfill their task on Earth.
3. A question arises: How to deal with these people and their Souls?
4. This is a complex question, and in such a case, I weigh carefully (as during court proceedings) the "for" and "against" arguments; check how the test with the Evil One went, i.e., verify what went right and what went wrong.
5. It is important for Me to know whether there was and is a sparklet, a gleam of hope that man will see the Light, that his Soul will correct Itself, that there is a possibility for the perfecting of his personality.
6. An important task is to determine, according to the results from man's existence on Earth, the duration of his stay and the necessity of returning this

man to the Material World.

7. In case that I see that a man (his Soul) is not mending or reforming his ways, if he has not passed his test with the Evil One, is obstinate like a donkey in the selection of life values and is holding to material benefits obdurately, then I shall not give a positive evaluation of his Soul. It will then be headed again to new trials but already in the Spiritual World.

8. It (his Soul) is meted out a penalty, and does not find itself having rest in the Spiritual World, but is dispatched to undergo a series of punishments in what you call Hell.

9. This is the lowest level of the Spiritual World, where the hardheaded, the disobedient Souls of people are punished with being subjected to a new cycle of trials on Earth.

10. I want you to understand that the stay on Earth is not beneficial to people.

11. The trials cannot be beneficial, and I give benefits and blessings to the people, to their Souls, only after the successful passing of the tests with the Evil One.

12. Only in such a case you receive My Blessings and My Help; only when I see man's sufferings; when I see the growth of his personality, and see how he overcomes difficulties by strenuous "sweat and blood" efforts.

13. I shall definitely help this man and shall support him at a difficult moment.

14. The movement towards Me commences with Faith, and due to that I begin the checking of man's path precisely with (his) Faith: Has he demonstrated any Faith in Me, in My World, and in My Eternity?

15. If I saw that the grain had fallen on fertile ground, I shall be patient and shall give this man another opportunity to rectify his mistakes by himself or with My assistance.

16. As a rule, I do give such a chance.

17. I can extend the life of this man either at the moment of the transition at the border between the Worlds, or I shall send him again to Earth after a brief period, with a new assignment, with a new designation.

18. I emphasize again: Your stay on Earth is not a Benefit from Me, but is a testing that I am subjecting you to. Following My instructions, the Evil One tortures you ceaselessly, offering you the temptations of the Material World.

19. You are still all stained (since Adam and Eve) with the blemish of the Original Sin; all people on Earth are thus marked.

20. That is why, reverting to the Biblical Sources, I say to you, "You are all sinners, but there is only one question: To what degree, to what extent is sin correctable, and is there any hope for salvation?"
21. This is My chief question and My task is to give an objective evaluation of your path on Earth and the level of perfecting of man's Soul.
22. I bestow Wisdom, as to Moses, only to the people (and to their Souls) who have passed successfully the tests with the Evil One, and have fulfilled My assignment for the present stage of life on Earth.
23. The most difficult thing for man is to understand his designation on Earth. There is none, and there will be no forthcoming help from Me in such a case. It is man's choice to determine (comprehend) his path.
24. People ought to remember: The Earth is a proving ground for your future in the Spiritual World. This is the most important thing.
25. If you remember about it constantly, then all trials become transitional, because all negativity retreats before Faith and Love; the Evil One backs away, too!
26. It is then that man becomes the Creator of his Eternal Soul!

DICTATION of December 7, 2004

1. It was important for Me, as a matter of principle, to show in the "Revelations" the hopelessness of the contemporary path of human evolution, especially the depressing status of society under the conditions of scientific and technological progress.
2. Here, on Earth, every nation has been given its own Program of perfecting. It is distinct, distinguishable from the ones of neighboring nations, because the specific abilities of the nation in question have been taken into consideration. At the same time, the ground for the unification of all nations in a single, homogenous Fifth (modern) civilization has been prepared.
3. The process of the discovery of contradictions in the evolution brought the social crisis to the point of a bifurcation, when the self-destruction process would commence, a process impacting not only societal relations but humanity at large, i.e., the suicide of humanity will be the end result.
4. This is why I was compelled to show these problems in the "Revelations," and

lift for the first time the curtain over the relations between the Material and the Spiritual Worlds and man's place in these events!

5. In the Holy Scriptures of the past, the main focus was on the peculiarities of social behavior on Earth, and the Spiritual World (Paradise) was discussed in a cursory fashion, as the ultimate phase of man's existence. However, in the present "Revelations," I disclosed the dynamics of man's eternal evolution and his transitions from one into another World in order to fulfill My assignments.

6. I described in details this process of man's eternal life, his tasks in the Material World, and the perfecting of his Soul only to help people comprehend the meaning of the level of responsibility for their actions.

7. I described openly, briefly, and for the first time, the stages of the Eternal life, and revealed the importance of the forming of man's personality during his stay on Earth. Man's stay on Earth is, as already stressed, but a stage of the process of the perfecting of his Soul in preparation for life in the Spiritual World and farther – in My Eternity.

8. Only by understanding that life in the Material World (Earth) is a sequential phase in the evolution of humans to a level when they will be of My Likeness, man would realize that he would never be able to get off My spirals of evolution. I punish him heavily for his failure to fulfill My tasks.

9. Man should know that his entire life is under the control of the Almighty. One cannot avoid this, cannot buy himself out using any riches.

10. As for the level of this World (Paradise or Hell), associated with man's receiving of a pass, it is up to Me to determine it!

11. I said in the "Revelations" that I keep track of everybody. My powers are sufficient. I keep warning you during your life, keep giving you signs, and keep helping you not to make mistakes prior to My Test. However, you do not heed My warnings, because avarice and hubris have plugged your ears, while your hands are moving only to acquire material benefits.

12. People, all this is useless! You are not going to take all of these benefits and riches anywhere!

13. You better concentrate on and take care of yourselves, of your personality, of your Soul while there is still time left.

14. I am sending you warnings for both the individual human beings --- in the form of diseases and infirmities, and for the governments --- as catastrophic disasters that result in destruction and devastation on a huge scale.

15. I already said that you were not aware of My Powers and My Potential. They are limitless, and you cannot defend yourselves from Them.

16. Is it truly possible that you cannot understand the simple truth that I am the Master here, and that the failure to fulfill My Demands will result in a harsh punishment?

17. If you do not understand, if you do not come to your senses, and do not return to My Religion, to My Eternal Laws, then you will not have Eternal life, then there will not be you!

18. Your path is only one – towards Me; there is none other, and there will not be any other path! Do think! There is little time left!

DICTATION of December 11, 2004

1. The cardinal objective of My "Revelations" is to impart Knowledge about Eternity in a modern format of presentation and in a full volume, compelling the very same man to re-examine the meaning of his stay on Earth.
2. I understand that not all people, and not at once, will give up on the worldly (material) temptations.
3. But the fog and the vacuous deliberations about God, about His help to suffering people, must dissipate completely, and then it will become abundantly clear why man lives and what are the tasks that I have assigned to him.
4. I emphasize: These are tasks, assigned by Me, and nobody else!
5. I declare again: I am the Master of all and everything, the Ruler of all Worlds! I decided to intervene Myself (directly) and carry out reconstruction on Earth in accordance with My Laws of Eternity!
6. It is for the first time that I am addressing people so openly, and am disclosing information about Me, as well as about the structures of the Worlds. I demand a compliance with My Laws, and I am beginning the restructuring of your society.
7. There has never been such a direct addressing of Mine to the contemporary man, but a new millennium has begun, and a new man has to enter it.
8. This is why, at the beginning of the New Century, of the New Millennium, I made a decision to change and reconstruct all on Earth My own way. I shall create realistic conditions for the perfecting of man's Soul and open to him the door to a higher level of development.
9. My decision to create humans, to create Adam and Eve, was linked to the necessity to prepare people, created in My image, to assist Me in the control of the Universe, of its planetary system in both the Material World and other Worlds of higher energy levels.
10. My chief intention was to effectuate genuine control with the help of humans in the overseeing of the planetary system (the system of planets).
11. But humans turned out to be (just) humans, failing even the first test with the Evil One. Eve's original sin was the precursor to My decision regarding the need to subject all people to trials here, on Earth, tests that would determine which

individuals would be worthy to be My assistants in Eternity.

12. Now I expect that a renewed man will become My true assistant in My actions, My assistant in Eternity.

13. The new times dictate the necessity of using new "game" rules. Humanity is at the threshold of epochal events, which will impact all and everybody, and it will be impossible to hide anywhere.

14. The World is on the brink of changes in social relations, at the threshold of accepting My Unitary Religion!

15. The task of the highest order is the acceptance of My Laws. Parallel with this process will be the one of the building of a New Righteous Society. As for the "ticket" that will enable people to gain entrance into the New World, this will be the acceptance of My Religion.

16. I am releasing these "Revelations" in order to make people think about My warning and about My Tasks at this modern (for you) stage of evolution.

17. Yet I am warning you: You will either accept My "Rules of the Game," or you will be done for!

18. Strict, frightful, but just! This is due to the fact that I need Men-Creators rather than men-beasts. These two kinds of humans follow different paths – Mine and the one that leads to people's transformation into a herd with all the concomitant consequences.

DICTATION of December 14, 2004

1. Humans are of different races, and can trace their origins to a number of extraterrestrial civilizations.

2. But all of the sources of humanity's calamities are to be found in the inability of people to understand their role on Earth, in their unwillingness even to examine it, and to turn to Me.

3. After all, only I can give a full explanation; only I shall prompt man what he is to do, and how he is to carry it out in order to complete My tasks successfully.

4. The failure to understand My tasks and life's purpose results in people's confusion and futile search on their own for life's goal. While doing this, humans are getting more and more tainted by sin and the vices of the Material World.

5. Nobody, including the Church, has explained to man that life on Earth is not simply brief, but is a brief materialization of the Eternal life.
6. Nobody has explained that the stay on Earth has precise objectives and tasks that are assigned by Me to each person on an individual basis.
7. If you are adhering to your teachings, which deny that life on earth is a sequential stage of materialization of the Eternal life, then you ought to be twice as frightened.
8. Thus, it turns out that having failed to achieve anything, all people – some in a state of suffering, some having gone mad with greed – are headed to oblivion.
9. What is then the meaning of all of this and the goal of constructive activity on Earth?
10. Then why is all of this?
11. There is no such absurdity with Me in Eternity!
12. In My Eternity, with Me, you are a particle of It. Here, everything is Eternal, and as I already stated, there is a rest of the Eternal movement.
13. Since you are My Children, then Eternity is bestowed upon you by Me. Your task, based upon the Laws of Eternity, is to go forward on the path of perfecting man's personality, his Soul.
14. I am sending you to Earth and am assigning to you tasks for a specific segment of time (terrestrial time) – all in the name of your perfection, the perfecting of your Souls.
15. I repeat once more that man's tasks are to understand and fulfill My assignments, and having passed through all kinds of challenges and tribulations, set up by the Evil One, to head "to the Stars," i.e., to Me!
16. Man's life in the Material World is short, but it continues in the Spiritual World, and is repeated again in the Material World.
17. Life's repetition does not mean that it becomes any easier, since the tasks that have not been discharged are not decreased, but are only piling up, and are demanding of man a mobilization of his inner strength to help him to perfect his personality, his Soul.
18. All assignments must be carried out in order for man to continue his Eternal life together with Me.
19. Do understand correctly: Life is eternal for all. Yet the people, who fulfill My tasks, ascend to a higher level of My Pyramid in the Spiritual World, while the

ones who have not fulfilled them continue to pass through senseless cycles of existence in the Material World.

20. There is a huge misunderstanding that it is fine to be here (on Earth) and that there is nothing better.

21. This is a fateful mistake. Here, all of the time man faces trials; there is nothing truly good – only sufferings and distress that are augmented by the sins and vices of the Material World.

22. Where have you seen a genuinely happy human being?

23. There are two sides to the coin characterizing all on Earth; there is an incessant struggle between Good and Evil, there is always "Yes" and always "No."

24. Only together with Me is man able to pass successfully through all trials. This is due to My help in his efforts to pass them, and then live in dignity by fulfilling all of My tasks.

25. This is the reason why I keep saying all of the time: Do come to Me, do accept My Laws, and then you will not face any obstacles that you will not be able to overcome!

26. Come to Me, and I shall give you a Blessing for your life in the Material World and a prompting for the handling of My tasks. Eventually, I shall lead you to another World and assign to you a place side-by-side with Me.

27. Your path is one, and it is with Me. There is no other path, and there will not be any other path.

DICTATION of December 15, 2004

1. I am becoming more and more convinced in the timeliness of the tasks, assigned by Me, that are focused on the restructuring of social relations on Earth, a process that has already commenced in Russia.
2. Unexpectedly for all, Religion, Its foundations and Its (canon) law are increasingly in demand in society as the only basis for the establishment of acceptable social relations and as a guarantee for the stability of the state.
3. In this complex state of affairs, it is crucial that the Church, that Religion at large, will justify Its role not only as an arbitration tribunal, but even more so, it will justify Its high Spiritual role as a leader of society.
4. Contemporaneously with this, the results of fundamental scientific research have debunked the old concept of the Material World. Scientists of world renown are now openly discussing – as Dr. Vernadski once did – the noosphere, having in mind the Divine Space. /Look at Commentary # 3./
5. The level of human evolution is unprecedentedly high; it corresponds to the tasks of the N will will will will ew millennium. The scope of man's interests expands far beyond the confines of the Material World.
6. Modern man has demands of Religion, too. He wants to analyze the ecclesiastical dogmas from a scientific standpoint, to ask the Church some vital questions, the responses to which will either bring about a Church-Science rapprochement, or will result in an ultimate bilateral schism.
7. Paradoxically, on the one hand, will the level of evolution of the human intellect is already far beyond the range of the Material World. On the other hand, however, in the realm of social relations man has not been able to formulate, to design a configuration or a structure of society that would be in unison with the degree of development of his mind, and would be instrumental for the creation of conditions for the evolution of his consciousness.
8. The level of the intellect of man has surpassed significantly the level of evolution of social relations on Earth. This contradiction retards the overall progress of humanity and demands prompt resolution.
9. If there is no solution to the problem, the outcome is known: I know that this failure will result in disorder in society.
10. The Church cannot assume the responsibility and lead humans into the

future, in the New millennium, on the road to progress and prosperity.

11. The Church is unable to do that, because its dogmas are obsolescent. The half-truths about the structure of My Eternity are not synchronic with the questions, issues and problems of your contemporaneity, and cannot be the basis of the new building of social relations.

12. This is why I raised the question about My Laws, about My Worlds, not through the Church, whose reorganization is still to be undertaken, but via the Ones Listening to Me -- through the modern humans who are in contact with Me.

13. The building of a human society, similar to My World-Structure, is the only possible path for humankind, the only hope for the building of just social relations that correspond to the objectives of the New millennium.

14. The New century, the New millennium -- this is the Era of the building of a human society in the Material World in semblance to the Lord's Kingdom. This process is conducted in accordance with the assignments I have given to each man as well as to humanity at large.

15. The New century, the New millennium will be the Era of Reason and the development of the might of humanity on the basis of My Laws of Eternity and the rest of the Eternal movement.

16. Having adopted My Laws of Eternity, My Structure of the Worlds, humanity will unravel unprecedented horizons of progress, unheard-of opportunities for the Man-Creator, the man who is in the likeness of the Creator of this World.

DICTATION of December 17, 2004

1. I am wrapping up my "Revelations." I want to give them to the people of the New millennium who live in conditions of intensive progress of science and technology that represent an integral part of the overall evolution of society.

2. Under these conditions of progress, many moral and ethical constructs in society are undergoing changes. In essence, what is transpiring is the forming of a new man, his foundations, his attitudes towards society and the conditions of communal living on Earth.

3. During this complex (for humanity) period, when the changing of the criteria of public relations engendered chaos, moral degradation and disintegration of society, a sobering cold shower is needed, i.e., My intervention in the events that are underway.

4. I must intervene in this critical situation on Earth. I see the depth of the deterioration of relations between people, and perceive what this can lead to.

5. I cannot allow the impending collapse that is threatening humanity to take place. You could never prevent it yourselves.

6. People need to heed My Voice, and understand that the future of humanity in the New millennium depends on their decisions now and during the next few years.

7. I have given to every man a Program for the Evolution of his consciousness. This is his main task during his stay on Earth. However, man and humankind at large could not realize the Program of the Evolution of consciousness that I have assigned to them.

Will

8. Today, everything has been reduced to a process, conducted by the power-holders, a process of dumbing down, of lowering to the level of primitive existence of the bulk of humanity. In its turn, this has brought about to an even more significant decay of mores and to the increasing proliferation and popularity of the use of the lowliest of human instincts and interests, of universal hostility and deceit. Naturally, this does not correspond to My Program of the Evolution of the consciousness of man to the level of man-God!

9. When I conclude that this does not correspond to My Universe-scale Program and that people do not even attempt to impede this Bacchanalia of fear and Spiritual debauchery, then I and My Assistants are left with no other choice, but to resort to force and take under control the process of the evolution of human consciousness. For people, this path is represented by their adoption of My Laws. They can use them as a base to develop their own consciousness to the elevation, occupied by the one of the Creator. This is where your salvation is!

10. This path is not only a path of the Transformation of the Consciousness of people, but is truly a path of the CARDINAL alteration of the vector of human evolution. You cannot even imagine what man would be able to do, once he had started realizing that he is a part of God, His particle!

11. People, society at large, ought to transfer to a radically different level of the "man-God" relationship, since all that is now on Earth must not be referred to as a Harmony between man and the Divine Space, i.e., God! The location of the meeting between man and God is man's heart, that is man himself!

12. This will constitute a GREAT RETURN of humans to the status of demigods, to these times (conditions), when contact between man (humanity) and God was a constant and natural state of affairs.

13. This is the reason why I want to mention the name of Nikola (Nicholas) Tesla. As the people who would be able to develop their consciousness were to

discover in themselves the ability to create New Worlds, without resorting to the use of the most modern technologies, all of the newest accomplishments of science will seem to them to be "yesterday's news." Thus, a completely unusual World of creative "super-possibilities" of the Spiritual man (acting in collaboration with Me, your Creator) will be opened!

14. I composed a new Prayer, which will give you the Light of hope for salvation, and give you the only Path to it:

"Our Father, Heavenly Father,
I accept Your Faith,
It is My Path,
I accept Your Eternal Laws,
With Love for You and Your Deeds.
Lord, I ask You to give Me Hope
For the salvation of My Soul.
And bestow on Me Your Wisdom
for My life
On Earth and in Eternity. Amen."

15. Here is the prayer that will open for you the door of Hope, and will save your Soul. You will receive My Wisdom for your Eternal life, and the depth and potential of your Soul will be revealed to you. It (your Soul) will be pure in Spirit, as long as your thoughts in the Material World are pure, the way the Lord's Lamb is pure prior to his entrance into My World, into My Future!

A PREFACE TO THE ANALYTICAL COMMENTARIES ON THE
"REVELATIONS" FROM A SCIENTIFIC STANDPOINT

Dr. Anna Zentsova-Vanneson

I do know, I am truly confident that religion will become an exact science in the foreseeable future. In it, the cardinal postulates will be proven as precisely as are the theorems of mathematics. I already see its beautiful outlines. The best minds of humanity will consider it a matter of honor to contribute to its formation.

I dedicate my "Analytical Commentaries" to all people, but especially to the intellectuals representing all branches of contemporary science. I am doing this because I do know, I am certain that the knowledge, given in the "Revelations," provides a stimulus for a wave of new scientific discoveries, new experiments, and new interpretations of phenomena that are already known. After all, our Creator already stated in the 2007 series of His Dictations, "You, people, are all particles of the Creator that have been placed by Me along the periphery not only of your Galaxy but of all of Space. This was done only to enable the particles of the Creator to demonstrate the possibility of the evolution of the consciousness to the Creator's level...Do occupy yourselves with scientific pursuits, but do not become engulfed in the study of Matter; you have already wasted too much time doing that! It is better for you to determine the Code of Eternity that governs the Matrix of Divine Space. Then you will be able to receive enormous information from It...Do ponder over the composition of the individual cells of your organism, and you will discover the First Cause of the origin of humans, and will comprehend the structure of Eternity!"

I (the author, Anna Zentsova-Vanneson) would like to state, "Look at what Universe of dazzling Beauty the Lord has given to us!"

cohesive Whole.

And there is still another important conclusion that can be drawn from the abovementioned experiments: "The (observer's) consciousness interacts with the Universe!" The phenomenon of the influence of the consciousness on the properties of particles can be easily understood, if we accepted that human consciousness itself is energy. In such a case, the fact of the influence of the consciousness on the energetic properties of the electron under observation can be explained in natural terms as an exchange of energy in the "consciousness of the observer-electron" system. In the next Commentary entitled "The Matrix of Divine Space...", we are going to adduce the unified concept (or paradigm) of reality that has been expounded in the Lord's Dictations, which date to the period between 2005 and 2012. It will definitely include and explain these amazing properties of the subatomic particles, of the consciousness, and of the Universe Itself.

Other experiments, carried out by physicists, brought about still another stunning result. It turned out that in some of these experiments the electrons were moving across space instantaneously! For example, when studying the atom, the scientists discovered that having left its orbit around the atomic nucleus, the electron was moving across space not like the ordinary macro-objects in the Material World, but was moving instantaneously. In other words, the electron disappeared from one and appeared in another orbit immediately. This phenomenon in physics is called a quantum leap. The said property of elementary particles is absolutely stunning, because the speed of each object in the macro-world – according to Einstein – is not supposed to exceed the speed of light. However, this law is applicable only to the Material (Dense) World. Therefore the fact of the sudden shift of the electron can be explained only in one way: The electron that is being transferred instantaneously is in the Etheric (al) World, where there are not any limits on the speed of the movement of energy. Thus, the experiment of quantum mechanics, centered on the immediate shift of the electron, corroborates the words of God (or the Supreme Reason, the Logos) that the nano-world is "at the junction of the Material and the Etherical Worlds." In this way, when certain stipulations have been met, the electron finds itself in the Etherical World, and demonstrates (to us) its properties related to the instantaneous movement in space.

Finally, I shall explain briefly Heisenberg's "Uncertainty Principle." It states that, if we were to measure one indicator at the quantum level – for example, a particle's speed – we would not be able to determine simultaneously the precise characteristics of other indicators, such as their coordinates. That is, regardless of our strenuous efforts, whatever we were to do, it would be impossible to measure the speed and the location of the quantum object. This can be explained in the following way: The exchange of information between a particle which is in the nano-world (the Etherical Plane) with an observer in the Material World, is incomplete and hence we cannot obtain all of the information about the said particle. This is due to the fact that the information contact or exchange between these Worlds is not complete, and we receive only limited information

COMMENTARY # 1

CONCISE INTERPRETATION OF THE LAWS OF QUANTUM MECHANICS

Several decades ago, scientists who were involved in research in different spheres of science, came to understand independently from each other the fundamental, key role of information in the processes that are transpiring in our Universe. Information is a peculiar kind of energy that carries with it some data; it is often referred to as an etheric(al) energy. Among the first scientists to comprehend and appreciate the important role of information were biologists, who demonstrated the crucial role of information in the realm of animate nature, which includes man. This conclusion was reached independently by physicists, who were working in the domain of quantum mechanics. Quantum mechanics, a major branch of modern physics, deals with physical processes that are taking place in the realm of subatomic particles, particles whose dimensions are equal to or smaller than the ones of atoms. The aforementioned physicists realized that the energy and the body mass represent main characteristic features that are best suited for the description of processes in the Material World or the Dense Plane (Dense Layer). As for the description of etheric planes, and to be more precise, of processes in the realm of subatomic particles, the concept of "Energy" could be acceptable but with significant reservations. Information, the exchange of information between different objects – this is the fundamental, determining category that characterizes the Etheric Planes, the realm of subatomic particles and all mental processes in humans. Experiments, conducted by physicists, have revealed that the exchange of information between subatomic particles, as well as the exchange of information between the particles and the experimenter, represent an important process. It turned out, for example, that the state of the particle depended on the very action of its measurement or observation by the experimenter! For instance, a non-measurable and non-observable electron behaves like a wave that is spreading across space. One has only to subject it to observation in a laboratory, and it will "dwindle" ("shrink") to a particle (i.e., will it will assume existence in space) that will be localized at one specific point of space.

Thus, the observable properties of the particle depend on the method used by the observing scientist and on the very fact of its observation by the experimenter, i.e., they depend on whether the observer had received information about it in the course of his/her experiment or not! This experimental result leads us to the conclusion that all objects are always connected to each other in our Universe. This important deduction helps us to understand that our Universe is a complex unified system, where all of the objects that are confined in It are strongly bonded to each other and are at a deep level in a single

about the particle that is in the World of Etherical Energy, i.e., the Spiritual World. Thus, quantum mechanics enabled man to study for the first time the unknown realm of etherical energies. In this world, consciousness interacts with the elementary particles, and the transfer of information between objects takes place instantaneously, regardless of the distances separating them!

COMMENTARY # 2

THE MATRIX OF DIVINE SPACE OR HOW THE UNIVERSE IS STRUCTURED

We are accustomed to think that everything around us is composed of matter (substance) and exists independently of our personal choice. However, we must reject the thinking along these lines in order to avoid contradicting the discoveries of quantum physics. A detailed exposition of the Teaching about the structure of the ambient Big Cosmos (the Divine Space in God's terminology) was given by the Creator in His Dictations of the 2005-2012 period, and will be presented by us in the second part of the "Revelations." Here, only the basic properties of Space will be described in a succinct manner.

THE BIG COSMOS OR THE DIVINE SPACE AS AN ENERGY-INFORMATION SYSTEM OF A HIGH-LEVEL ORDER (SPACE AS AN INFORMATIONAL DATABANK OF THE UNIVERSE)

All is energy in our World: matter, information, and human consciousness. The World that surrounds us is a multidimensional and multilayered Space of energies. It represents an enormous collection of energies of different frequencies (ranging between the levels of super-dense and dense energies, i.e., matter, to the level of etheric fields) and intensity. Moreover, there are energies of two signs in Space – a "plus" one and a "minus" one. In each physical system, energy is emitted and absorbed by all of its integral parts, i.e., an energy exchange is taking place and energy flows are generated in the system. In our Universe, the meeting energy-information wave flows form hexagonal cells whose configuration is reminiscent of bee honeycombs. Each of these energy cells is similar, i.e., possesses space structure that resembles the honeycomb structure of the clusters of galaxies in our Universe. Memory fragments are deposited in each microcell, i.e., an accumulation and storage of information is taking place. The accumulation of information by the cells originates from the Beginning (the Big Bang) to Eternity; moreover, for each Universe – and there are several hundred thousand of them in Space – there are thousands of variants for its evolution. The energy-information microcells form a complex structure, whose fitting, accurate appellation is a "Matrix." The word "matrix" presupposes and denotes the existence of a strict order of distribution of energy of both signs. This order, however, is not a primitive net but a deeply built-in system of cause-and-effect connections that have centers of energy concentration. They serve as agents of energy transferral and harmonization (an optimal method of energy distribution between levels) of all levels, while the process of the information transfer and exchange in such a system is carried out on the basis of intricate numerical codes. The harmonization of Space is

obtained with the help of the balancing of the energies of all of Its components. In such a Matrix, an energy-information tandem of certain quality is brought to a corresponding storage cell. In the Matrix cells are recorded not only all of the events of the past, but also the programs of Creation and evolution of the Worlds. Figuratively speaking, the Matrix represents "computer memory." In this manner, our Universe is in essence a complex energy multilevel grid (Matrix) with a digital system of information transfer, which is related to the control and distribution of systems of the same kind, in accordance with the theory of numbers! The high-speed transfer of information in the Matrix of Space surpasses, is a billion times faster than the newest computers, which copy the Space of the Universe. The information of each cell allows events to evolve, according to thousands of scenarios.

The cardinal law of Space is the Canon of Rest of the Eternal Movement, i.e., the unlimited, endless development and self-perfecting of all of Its integral parts. The perfecting progresses on the basis of the relevant structure as well as data. The Second Canon of Space asserts that It is universal and is characterized by self-likeness. Thus, each of Its most miniscule ingredients behave in a way resembling "how a drop of water repeats the properties of the ocean." /Let us remind ourselves here of the mutual similarity of the microcells of the honeycomb-structured Universe./ The violation of this Canon results in confusion and disruption of the Harmony, which compels Space to correct the parts that are out of sync by transforming or tearing them away. Besides, the universality of Space signifies that all, which is in It, is subject to the laws of physics that have been formulated by some of the greatest scientists of humankind. This confirms the similarity of systems at all levels of energy. Its repeatability and its integrity (congruence) represent the basis of its evolution.

Space is characterized by a diverse field density of energy, which reaches maximum in the middle of the system, and correspondingly minimum along the periphery. This is why the energy (speed) of the processes of evolution along the periphery of Space is weaker (lower) than in Its center. The reason for this is that both time and the energy density are compressed in the Center. So, as far as God (Who is located primarily in the Center of Space) is concerned, there does not exist a category of time; for Him, our extended processes (of evolution) are compressed within one Instant!

Consciousness is an energy characteristic (a peculiar kind of energy) of a local field (energy) structure, which is on the periphery of Space. Man, for instance, is one such structure.

Space is multidimensional and multilevel. This means that at any moment all ambient energy levels and all vibration frequencies exist contemporaneously, and that there are no temporary or substantive differences between these levels. We possess the ability to observe and feel only three space dimensions in this multidimensional Space, and 99.9%, i.e., the preponderant segment of this Space, is in principle not accessible to us and our devices. As for the 4-dimensional World, It is an Etheric(al) World, which is accessible presently only

to individual clairvoyants. But all entities that appear in our Material 3-dimensional World, appear in very different ways in other Multidimensional Worlds.

This is an interlacing of levels, an interlacing of Worlds, and creates a Great World of Eternity, where everything is balanced and where Harmony is the foundation of the Eternal Evolution, i.e., of the Eternal Motion. It is precisely the Information Matrix of Space that represents a receptacle for the entire Creation, a bridge between the visible and the invisible Worlds, between related levels.

Finally, Space, possesses an Intellect! The Matrix of Space contains a peculiar type of an etherical energy of consciousness. There are energies of consciousness of different frequencies (vibrations) in the Matrix. They form a multilevel Pyramid or a Hierarchy, in which each higher level represents a Creative energy (power) for the next level, i.e., it is a Creator. The highest level section of this Pyramid of Consciousness is the Supreme Intellect (the Logos). Our Lord is Its Peak. The first scientist who came to comprehend the Divine Space was the eminent Russian intellectual Vladimir Vernadski (Vernadskii). The meaning of the structure of the Pyramid of Consciousness was figured out by this Russian professor almost 100 years ago. Dr. Vernadski named the Pyramid of Consciousness a "noosphere."

The sphere of the Supreme Intellect is rather expansive. We, humans, are the embryos of the Supreme Intellect, and occupy the lowest level of the very foundation of the Pyramid of Consciousness.

The representatives of the Supreme Intellect exist in both the Etherical Worlds and the Material World. The forms of life in other Worlds and the Material World are as diverse as the Worlds themselves. The majority of them are radically different, when compared to the biological form of life that humans belong to.

Humanity is not the only civilization in the Big Cosmos. In the other Worlds, in the other Galaxies, there do exist peculiar, unusual forms of the Supreme Intellect that are difficult for humans to understand. A considerable part of them have reached high degrees of evolution. Nine of the most advanced civilizations of our Galaxy are united in a Galactical League and are interconnected via mutual agreements. Humankind belongs to the category of "dormant" civilizations, and is far behind the Galactical League members. There have been civilizations that have destroyed themselves. This has been, for example, the fate of Mars.

COMMENTARY # 3

WATER AS AN INFORMATIONAL MATRIX OF EARTH, OR HOW
CONSCIOUSNESS PROGRAMS THE STRUCTURE OF WATER

Water represents a terrestrial analog (a fractal similarity) of the Matrix of Space. Water possesses not only physical and chemical properties, but informational ones, too. In other words, it remains immutable in terms of its physical and chemical composition, but alters its structure, depending on the received information. It turns out that water changes under the influence of multifaceted information, such as the addition to it of any substances, or even the placing on the vessel containing it a label that denotes human emotions and ideas. The results from similar experiments are described in a most detailed manner by the Japanese scientist, Dr. Masaru Emoto, in his voluminous monograph, "The Message of Water." The photographs, given in this book, illustrate the fact that the water, marked positively (regarding the label of the containing vessel), transforms itself during freezing into beautiful crystals that are shaped harmoniously, i.e., have regular forms, while the water marked negatively converts itself into distorted, misshapen crystals.

How does this take place? The water molecule is a dipole, i.e., it consists of positive and negative poles that attract each other. The "hydrogen bridges" of neighboring molecules that are being formed keep touching each other, and the molecules unite in developed super-stable structures which are called clusters. The clusters represent memory cells resembling the hexagonal cells of the Space of the Big Cosmos, i.e., water also has the structure of a matrix! In the opinion of scientists, there are 440,000 panels in each memory cell of water. Thus, water – as befits the Matrix – has cell structure. When undergoing restructuring under the influence of information, water records this information and remembers it for an extended period of time. This transpires as a consequence of the formation in water of clusters with enhanced contents and with a definite structure, which is conditioned by the impact of specific information. It is precisely in this way that the "water memory" and its informational properties can be explained. The degree of the orderliness of a structure of this type is so high that it can be compared with a crystal (a structure, characterized by maximal orderliness, which we only know). It represents something like a liquid crystal. Moreover, scientists think that water behaves as a thinking substance, which exchanges information with the entire Universe. It is connected (in terms of information flows) with the physical vacuum. Water is the cardinal Matrix of Earth; it is the link through which the Cosmos governs the processes on Earth. Water creates conditions for life and governs life; it is the Divine natural computer of Earth!

Finally, having understood the matrix structure of water, it is easy to explain the

fact of its structuring under the influence of people's prayers. It is well known that on numerous occasions water changes its color and transparency after the prayers of believers. The Eastern Orthodox Christian Church, for example, uses the rite of the purification and blessing of the water. Prayers, as a product of human consciousness, possess enormous energy which causes the formation in water of clusters with a definite structure. Thanks to this, such a water – when being drunk – transmits favorable information to the human organism. This explains the beneficial, cleansing influence over people by the water that has been blessed in an Orthodox Christian temple during the Lord's Baptism Feast, which is celebrated annually on January 19. It carries in it the Grace of the Creator Himself!

All elements and objects in the World are configured on the Matrix principle, and the honeycomb grid of this System permeates all of them -- creating, organizing, coordinating, and directing their evolution!

COMMENTARY # 4

AN ANSWER TO THE QUESTION, "WHY DOES GOD TRULY EXIST?"

(THE ANSWER CAN BE FOUND IN EXCERPTS FROM THE LORD'S DICTATIONS OF 2006 -- SELECTED AND ARRANGED BY DR. ANNA ZENTSOVA-VANNESON)

1. The minds of millions of people are starting to be struck with the realization of the existence, the participation in their lives of a Great Intellect, which is called God. Today, science is the main demonstrative basis for those who – in their development, and more accurately, in the evolution of their consciousness – have gotten stuck at a confusing crossroads, leading to atheism.
2. Today, as never before, science is becoming God's assistant, since scientists – through their research – are transforming the primitive religious concepts of God (that are incorporated in all religions of the World) into a scientifically substantiated presence of a Creator. This is when religion becomes a science, which explains the complex and polyhedral (many-sided) character of the Divine Space, and most importantly, it elucidates to people the meaning of their creation by the Great Creating Perfection.
3. Under pressure from science, now each sensible human being simply ought to become a man of Faith. Only science, only scientists are today the defenders of My Faith, since the Truth is more important to them than anything else, and the Truth is God, the Perfect Space of the Intellect, Which is creating a new Perfection – humans!
4. The fundamental Canon (Law) of Eternity is the Canon of the Evolution of Space. The development and the consciousness of each person and humankind at large will be subject to It.
5. If people were to understand and accept the Material World as a part of Eternity, then nobody would have any doubts that the ruling System, i.e., the Creator or the Supreme Intellect, could intervene in this evolutionary process in order to induce order or harmony.
6. When raising the question, "Who is God?" people should comprehend and accept that God, or a Supreme Cosmic Intellect, is a Governing System that endeavors to establish and maintain rest and Harmony, to balance all positive and destructive forces of the Divine Space.

7. However, more important than anything is that the vector of the power of the Supreme Cosmic Intellect has invariably a positive meaning, i.e., it is directed or oriented towards Creation, towards Constructive Work. The preservation of this vector is the chief task of God or the Supreme Intellect.

8. People must never feel that there is no Creator, that there is no Center of Governance, because in the precisely and strictly emplaced energy System, in the energy exchange System, there does exist such a Center. It governs all, and will not accept a disequilibrium of energy. You call It God.

9. It would be easier for man to accept this simple truth, and the word "Faith" would not have in this case a religious connotation, but would rather be a scientific verification of the fact of the existence of an energy exchange System in Space and of the presence of a Governing Power of Eternity.

10. Only Knowledge, which I bestow on you in the "Revelations," allows the formation in your consciousness of the genuine Faith, since everything else is not Faith, but only a declaration or worse than that – a lie!

11. There cannot be any progress, any Great Science in the absence of FAITH, since ALL that humanity possesses has been suggested by Me, the Creator, in order for people to be able to find the paths that connect them; for humanity is doomed to chaos without Unity, without a Common (Single) FAITH!

12. If you do not accept God, if you do not accept the fact of the presence around you of the Sphere of the Supreme Intellect, this means that you do not accept the fact of your own presence, since man belongs to the Sphere of the Intellect.

13. Only a few humans, only persons of Faith become – with My help – geniuses who disclose to people the Code of Eternity, in words and the music of words, and their masterpieces, be they verse, prose or music, constitute the Coded Space of Eternity.

14. It is only necessary to understand that man has been created by Me for the Goals of the Great Cosmos, for the expansion of the Sphere of the Intellect to other Galaxies! At a distant plane, there exist civilizations that are more advanced (than the terrestrial one), which also means that they are at a higher level of Spirituality. However, at closer distances there will not be any competing civilizations (with yours). This will be the case, if you were to fulfill My Program for the elevation of your Spirituality to the level of the one of My Assistants in Eternity!

15. Great changes await you. They will become a reality, depending on your Spiritual Perfecting. Anything can happen! After all, everything has been predetermined!
